PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India **09/2021 – 01/2025 (3.5 Years)**

- Administered and resolved application issues for a financial-services dashboard, performing **root cause analysis** on P1/P2 incidents within strict SLAs and maintaining **99.9% availability**.
- Coordinated with UAT teams and development engineers to manage application releases and deployments across multiple environments, ensuring seamless **production outputs**.
- Designed and maintained expertise in the end-to-end flow of a payments operations dashboard, supporting **transaction monitoring** and operational alerting for failed messages.
- Automated data validation and reporting processes using **Python scripting**, reducing manual effort by approximately **15 hours per week**.
- Developed and maintained **REST APIs** using **Java Spring Boot** for cross-system integrations, facilitating data flows between interconnected enterprise platforms.
- Analyzed and debugged application issues on server domains, preparing detailed **documentation of all issues and solutions** for knowledge transfer and team reference.

SKILLS

Core Technologies – Java, Spring Boot, Python, SQL, .NET

Databases – PostgreSQL, MySQL, Oracle, Microsoft SQL Server

Cloud & Infrastructure – AWS (EC2, S3, Lambda, CloudWatch), Azure, Docker, Linux

Tools & Platforms – Jira, Confluence, Jenkins, Git, Splunk, Dynatrace, Microsoft IIS, Postman

Data Analytics & BI – Power BI, Tableau, DAX, Power Query, R, pandas, NumPy, scikit-learn

Methodologies – Agile, Scrum, Change Management, UAT Coordination

EDUCATION AND TRAINING

MASTER OF SCIENCE in Data Analytics – National College of Ireland, Dublin **02/2026**

BACHELOR OF ENGINEERING in Computer Science – SNS College of Technology, Coimbatore, India **01/2021**

PROJECTS

Payments Reconciliation & Transaction Monitoring Dashboard

- Developed a dashboard using **Java Spring Boot** and **PostgreSQL** to visualize transaction flows and highlight reconciliation discrepancies for financial operations.
- Implemented automated alerts for failed payment messages, reducing manual intervention time by **30%** and improving issue detection speed.
- Collaborated with business analysts to define reporting requirements and supported UAT cycles for new dashboard features.

Automated System Health Monitoring & Reporting

- Created **Python** scripts to aggregate logs from **AWS CloudWatch** and **Splunk**, enabling proactive identification of system performance bottlenecks.
- Designed and implemented automated reports on application availability and error rates, providing key insights to the engineering team and improving incident response times by **20%**.
- Managed CI/CD pipelines using **Jenkins** for automated testing and deployment of monitoring scripts and backend services.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
