

HARIRAMAKRRISHNAN RAMACHANDRAN

+353 899706156 | hariramakrrish@gmail.com | [LinkedIn](#) | Stamp 1G — Eligible to work full-time in Ireland

PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India **09/2021 – 01/2025 (3.5 Years)**

- Supported continuous improvement initiatives by applying **Lean tools and techniques** such as process mapping and root cause analysis to identify waste reduction opportunities, contributing to a **15% improvement in operational efficiency**.
- Assisted in the collection and analysis of **operational data** using **Python** and **SQL** to track performance metrics for sustainability objectives, such as energy efficiency and waste reduction.
- Collaborated with cross-functional teams, including operations and quality assurance, to embed **Lean ways of working** and a culture of continuous improvement within a regulated food manufacturing environment.
- Contributed to environmental performance improvements by supporting data collection for **energy efficiency** and **responsible resource use** initiatives, helping to streamline reporting processes.
- Participated in **continuous improvement workshops** focused on strengthening standard work and improving process stability, directly impacting daily operations and team accountability.
- Ensured all activities adhered to stringent **food safety, quality, and health & safety standards**, maintaining compliance with company policies and good manufacturing practices throughout production.

SKILLS

Lean & Sustainability – Lean principles, Continuous Improvement, Waste Reduction, Process Mapping, Root Cause Analysis, Standard Work, Visual Management, Environmental Performance, Resource Use

Data Analysis & Reporting – Data Collection, Data Analysis, Operational Data, Performance Tracking, SQL, Python, R

Manufacturing Operations – Food Manufacturing, Good Manufacturing Practices (GMP), Food Safety, Quality Assurance, Health & Safety, Process Stability

Tools & Technologies – Power BI, Tableau, Python, SQL, Jira, Confluence, AWS, Docker, Jenkins, Git

Methodologies – Agile, Scrum, Continuous Improvement Workshops

EDUCATION AND TRAINING

MASTER OF SCIENCE in Data Analytics – National College of Ireland, Dublin **02/2026**

BACHELOR OF ENGINEERING in Computer Science – SNS College of Technology, Coimbatore, India **01/2021**

PROJECTS

Operational Efficiency Dashboard for Food Production

- Developed an interactive **Power BI dashboard** to visualize key operational metrics, including waste reduction, energy consumption, and process cycle times.
- Extracted and transformed data from disparate sources using **SQL** and **Power Query**, ensuring data integrity for accurate performance tracking.

- Collaborated with production leads to define reporting requirements and deliver actionable insights, supporting evidence-based decision-making for continuous improvement initiatives.

Automated Production Data Analysis Pipeline

- Created **Python scripts** to automate the collection and initial processing of production line data, reducing manual data handling by **40%**.
- Implemented data validation checks and error handling within the scripts to ensure the reliability of processed data for downstream analysis.
- Supported the integration of this automated pipeline with existing reporting tools to provide timely updates on operational efficiency and sustainability metrics.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
