

HARIRAMAKRRISHNAN RAMACHANDRAN

+353 899706156 | hariramakrrish@gmail.com | [LinkedIn](#) | Stamp 1G — Eligible to work full-time in Ireland

PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Designed and implemented **interface solutions** for healthcare application **interoperability**, mapping data between client and third-party systems using **JSON** and **HL7** standards.
- Developed **strategic "gold-build" interface solutions** for new product integrations, ensuring seamless data flow and adherence to **Dedalus** product portfolio requirements.
- Executed technical analysis, configuration, and **testing activities** for integration work packages, producing comprehensive documentation for internal and customer acceptance testing.
- Generated **test stubs and test harnesses** to validate interface functionality, reducing integration testing cycles by an average of **20%**.
- Troubleshoot and resolved complex **integration customer support issues**, particularly those posing a clinical risk, ensuring minimal disruption to healthcare operations.
- Analyzed product release notices and performed **impact analysis** on existing interfaces, proactively managing upgrades to maintain system stability and compliance.

SKILLS

Healthcare Standards – HL7, TCP/IP, ASTM, FHIR, JSON

Integration Technologies – Integration Engine Technology, Interface Development, Data Mapping

Software Development – Java Spring Boot, Python, REST APIs, Docker

Databases & Data Modeling – SQL, PostgreSQL, MySQL, Oracle, Logical Data Models, Physical Data Models

Cloud & DevOps – AWS (EC2, S3, Lambda, CloudWatch), Jenkins, Git

Analysis & Support – Technical Analysis, System Support, Incident Management, Change Management, UAT

Business Intelligence – Power BI, Tableau, DAX, Power Query

EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of
Ireland, Dublin**

02/2026

**BACHELOR OF ENGINEERING in Computer Science – SNS College
of Technology, Coimbatore, India**

01/2021

PROJECTS

Healthcare Interoperability Platform

- Designed and built a middleware solution to enable interoperability between disparate healthcare systems using **Java Spring Boot** and **REST APIs**.
- Implemented data mapping and transformation logic for **HL7 and JSON** message structures, processing over **10,000** patient records daily.

- Developed automated testing scripts for interface validation, reducing manual testing effort by **30%** and ensuring data integrity across integrated applications.

Clinical Data Integration Dashboard

- Developed a **Power BI** dashboard to visualize critical data from integrated healthcare applications, providing real-time insights into patient flow and operational metrics.
- Configured **Power Query** for ETL processes, consolidating data from multiple sources including **SQL databases** and API endpoints.
- Created custom **DAX measures** to track key performance indicators, enhancing decision-making for clinical operations and improving data accessibility for stakeholders.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
