PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Provided **Service Desk and Field Support** to enterprise clients, resolving an average of 15+ hardware, software, and network issues daily.
- Deployed, installed, and configured **desktops, laptops, and mobile devices** for new user onboarding, completing an average of 5 setups per day.
- Administered and supported **Microsoft 365** services including user account management, license allocation, and basic SharePoint site configuration.
- Assisted with cybersecurity initiatives by supporting endpoint security solutions and enforcing **GDPR Awareness** policies for client data protection.
- Managed and resolved P1/P2 incidents for enterprise applications, ensuring adherence to strict Service Level Agreements (SLAs) and maintaining 99.9% system uptime.
- Developed automated **Python scripts** to streamline data extraction and reporting processes, reducing manual effort by approximately **40%**.

SKILLS

Operating Systems – Windows 10, Windows 11, Linux

Cloud Services – Microsoft 365, Azure, SharePoint, Teams, AWS (EC2, S3, Lambda, CloudWatch)

Hardware & Software Support – Desktops, Laptops, Mobile Devices, Printers, Microsoft Server 2019, 2022, Microsoft 365 Administration

Networking & Security – Firewalls, Routers, VPN, LAN, Wireless, Cybersecurity, Endpoint Security, Threat Detection & Response, Microsoft 365 Hardening, DNS, DMARC, DKIM, Information Security, GDPR Awareness

Development & Scripting – Python, Java, Spring Boot, SQL, REST APIs, Docker

Tools & Methodologies – Jira, Confluence, Jenkins, Git, Splunk, Dynatrace, Autotask, Datto, Agile/Scrum

EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of
Ireland, Dublin**

02/2026

**BACHELOR OF ENGINEERING in Computer Science – SNS College
of Technology, Coimbatore, India**

01/2021

PROJECTS

Client Device Deployment & Management System

- Engineered a **Python-based automation tool** to streamline the deployment and configuration of new employee laptops and desktops, reducing setup time by **30%**.
- Integrated the tool with **Active Directory** for automated user account creation and group policy application, ensuring consistent configurations across all new devices.

- Developed a basic dashboard using **Flask** to track deployment progress and device status, providing visibility to the IT operations team.

Financial Transaction Monitoring Dashboard

- Developed and maintained a **Java Spring Boot** application for a financial services client's operations dashboard, focusing on real-time transaction monitoring.
- Implemented REST APIs for data ingestion from upstream systems and built reconciliation workflows to validate transaction integrity, supporting **99.95%** data accuracy.
- Configured **Splunk** alerts for failed or suspicious transaction messages, enabling rapid response and reducing potential financial exposure.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
