PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Supported Supplier Quality Engineering activities by performing **inspections** and collecting **manufacturing and inspection data**, contributing to investigations and disposition of nonconforming materials.
- Provided day-to-day quality support on the **manufacturing floor**, assisting production teams with **methods, processes, and specifications** to resolve quality issues.
- Maintained and updated **quality procedures and protocols**, conducting routine line audits to verify system effectiveness and adherence to GMP, GLP, and ISO standards.
- Identified and contributed to **quality and process improvement initiatives**, supporting corrective actions and communicating concerns related to safety and environmental impact.
- Demonstrated strong **documentation practices** and attention to detail while interpreting **drawings and specifications**, leading to sound decision-making in quality investigations.
- Supported the assessment and disposition of **nonconforming materials** by collaborating with cross-functional teams, ensuring compliance with internal quality systems and external regulations like **ISO**.

SKILLS

Quality Systems – Supplier Quality, Change Orders, NCEs, NCMRs, SCAR, CAPA, GMP, GLP, ISO, Six Sigma, MDSAP

Manufacturing Support – Shop-floor presence, Production support, Inspection tools, Process improvement, Line audits

Data Analysis & Reporting – Manufacturing data, Inspection data, Database applications, Microsoft Office

Core Technologies – Oracle, Agile, SQL, Python, Java, Spring Boot, AWS, Docker, Linux

Project Management & Collaboration – Cross-functional teams, Senior management, Regulatory personnel, Engineering, Materials, Operations

EDUCATION AND TRAINING

MASTER OF SCIENCE in Data Analytics – National College of Ireland, Dublin

02/2026

BACHELOR OF ENGINEERING in Computer Science – SNS College of Technology, Coimbatore, India

01/2021

PROJECTS

Supplier Nonconformance Material Tracking System

- Developed a **Python** script to automate the tracking and reporting of nonconforming materials (NCMRs) from supplier receipts to final disposition.
- Integrated the script with **PostgreSQL** database to maintain a historical log, enabling faster retrieval of data for quality investigations and audits.

- Designed a basic **dashboard** using **Power BI** to visualize NCMR trends, helping to identify recurring issues with specific suppliers and product lines.

Manufacturing Process Audit Protocol Automation

- Created automated audit checklists and data collection templates using **Jira** and **Confluence** for routine manufacturing line audits.
- Implemented **Java Spring Boot** REST APIs to facilitate data transfer between the audit system and a central quality database, improving data integrity.
- Supported the **UAT** process for the new audit system, gathering feedback from operations teams to refine usability and ensure compliance with internal quality standards.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
