PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India **09/2021 – 01/2025 (3.5 Years)**

- Configured and deployed enterprise network solutions for new customer environments, integrating **HPE Aruba** switches and **Fortinet** firewalls to meet client-specific requirements.
- Managed network infrastructure reliability and performance for financial-services clients, overseeing **firewalls**, **switches**, and **wireless access points**, sustaining 99.9% uptime.
- Acted as a senior escalation point for complex network incidents, leading root-cause analysis and implementing remediation strategies for high-impact issues impacting client operations.
- Developed Python scripts to automate data ingestion and reporting for operational dashboards, improving data pipeline efficiency by **30%** and reducing manual effort.
- Designed and implemented REST APIs using **Java Spring Boot** for seamless integration between enterprise systems, facilitating data exchange across multiple platforms.
- Produced detailed technical documentation and reports on network health and performance trends for both internal teams and external stakeholders, enhancing communication and transparency.

SKILLS

Networking Hardware – HPE Aruba, Fortinet, FortiGate, Palo Alto, Cisco

Network Services – Switching, Wireless, Firewalls, NAC, AAA, VPN

Network Management – Network Monitoring Tools, Firmware Upgrades, Capacity Planning, Segmentation, Scalability, Security Design

Cloud Platforms – Microsoft Azure, AWS (EC2, S3, Lambda, CloudWatch)

Operating Systems – Linux, Microsoft Windows

Programming & Scripting – Python, Java, Spring Boot, REST APIs, SQL

Databases – PostgreSQL, MySQL, Oracle

EDUCATION AND TRAINING

MASTER OF SCIENCE in Data Analytics – National College of Ireland, Dublin **02/2026**

BACHELOR OF ENGINEERING in Computer Science – SNS College of Technology, Coimbatore, India **01/2021**

PROJECTS

Enterprise Network Deployment Framework

- Developed a repeatable framework for deploying enterprise network solutions, standardizing configurations for **HPE Aruba** switches and **Fortinet** firewalls across diverse client sites.
- Integrated network monitoring tools to provide real-time visibility into infrastructure health, enabling proactive identification of performance bottlenecks and potential issues.

- Authored comprehensive technical documentation, including network diagrams and configuration guides, to support client onboarding and ongoing operational management.

Payments Transaction Monitoring Dashboard

- Built and maintained a **Power BI** dashboard for a financial-services client, visualizing transaction flows, operational alerts, and reconciliation status for payment messages.
- Automated data extraction and transformation processes using **Python** and **SQL**, ensuring timely and accurate reporting on critical payment operations metrics.
- Collaborated with business analysts to define KPIs and reporting requirements, delivering actionable insights that supported operational efficiency and compliance.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
