+353 899706156 | hariramakrrish@gmail.com | [LinkedIn](#) | Stamp 1G — Eligible to work full-time in Ireland

PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Managed production support and incident response for enterprise applications, ensuring adherence to strict SLAs and resolving P1/P2 incidents to maintain **99.95% uptime**.
- Developed Python scripts to automate ETL processes and scheduled reporting, reducing manual data processing efforts by **40%** and improving data pipeline efficiency.
- Enhanced Java Spring Boot REST APIs for core services, implementing new features and resolving defects to support evolving business requirements.
- Configured and maintained CI/CD pipelines using **Jenkins** and **Git**, streamlining code deployment processes and reducing release cycle times by **15%**.
- Supported and integrated with enterprise business systems, including ERP modules, managing change control processes for system updates across interconnected platforms.
- Analyzed and resolved equipment-related issues impacting brewery performance, applying **process improvement** and **root cause problem-solving** techniques to enhance operational efficiency.

SKILLS

Maintenance & Operations – SAP-PM, Maintenance Planning, Asset Care, Reliability Maintenance, Manufacturing Excellence, Autonomous Maintenance, Work Order Planning, Spare Parts Planning, Process Improvement, Root Cause Analysis

Brewery & Utilities – Brewing Operations, Raw Materials Handling, Brewhouse, Cold Block, Utilities Plants, Water Treatment, Process Utilities, Refrigeration, Food Safety, Environmental Standards

Engineering & Technical – Electrical Maintenance, Mechanical Maintenance, Instrumentation, Isolations, Contractor Management, Commissioning, Capital Work Support, Equipment Capability

Software & Systems – Java, Spring Boot, Python, REST APIs, SQL, PostgreSQL, MySQL, Oracle, Linux, Shell Scripting, Docker, AWS

BI & Reporting – Power BI, DAX, Tableau, R, Data Modelling, Data Warehousing, ETL, Power Query, Operational Reporting, KPIs

Project Management & Tools – Jira, Confluence, Agile, Scrum, Change Management, UAT, SAP Process Orders, Risk Management

EDUCATION AND TRAINING

MASTER OF SCIENCE in Data Analytics – National College of Ireland, Dublin

02/2026

BACHELOR OF ENGINEERING in Computer Science – SNS College of Technology, Coimbatore, India

01/2021

PROJECTS

Brewery Operations Monitoring Dashboard

- Developed a **Power BI** dashboard to visualize key performance indicators (KPIs) for brewery production areas, including raw materials, brewhouse, and utilities.
- Integrated data from disparate sources using **Power Query** and implemented complex **DAX** measures to track asset performance and identify maintenance needs.
- Published interactive reports to business stakeholders, providing real-time insights into operational efficiency and supporting data-driven decision-making for maintenance planning.

Automated Production Line Support System

- Designed and implemented a **Python**-based system for automated monitoring of production line equipment, detecting anomalies in real-time.
- Integrated with **AWS Lambda** and **CloudWatch** to trigger alerts for potential equipment failures, reducing downtime by an estimated **10%** through proactive intervention.
- Built REST APIs using **Flask** to provide status updates and facilitate communication between the monitoring system and maintenance scheduling tools.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
