PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Analyzed **customer behaviours** across multiple retail categories to identify opportunities for improving customer retention and value growth, presenting findings to senior stakeholders.
- Developed **Power BI dashboards** and **DAX measures** to track CRM & Loyalty performance, providing actionable insights on customer base growth and value per category.
- Supported business teams by identifying trends in customer segments for **Fashion, Clothing, and Homeware** categories, prioritizing segments for CRM and Loyalty targeting.
- Advised on **KPI goals** per customer segment and ensured tracking mechanisms were in place, identifying root causes for non-performance in loyalty programs.
- Critiqued the potential impact of new marketing campaigns on customer uptake, retention, and value growth, recommending adjustments to maximize ROI.
- Performed advanced **customer cohort analysis** and segmentation using Python (pandas, scikit-learn) and SQL, identifying key drivers of customer loyalty and churn.

SKILLS

Analytics & BI Tools – Power BI, Tableau, DAX, Power Query, SQL

Data Analysis & Modelling – Customer Segmentation, Cohort Analysis, Statistical Analysis, Predictive Modelling, Data Validation

Programming Languages – Python, R

Data Handling & ETL – Data Warehousing, ETL Processes, Database Management (PostgreSQL, MySQL, Oracle)

Business Acumen – CRM, Loyalty Programs, Campaign Analysis, ROI Calculation, Financial Acumen, Retail Analytics

Development Practices – Agile/Scrum, CI/CD, Git, Jira, Confluence

EDUCATION AND TRAINING

MASTER OF SCIENCE in Data Analytics – National College of Ireland, Dublin

02/2026

BACHELOR OF ENGINEERING in Computer Science – SNS College of Technology, Coimbatore, India

01/2021

PROJECTS

Customer Segmentation & Loyalty Insights Dashboard

- Developed an interactive **Power BI dashboard** to visualize customer segmentation and loyalty program performance for a retail client.
- Integrated data from multiple sources including **EPOS** and third-party market data using **Power Query** to create a unified view of customer attributes.

- Implemented **DAX measures** to track campaign uplifts and return on investment for marketing initiatives, presenting insights to business owners.

Retail Campaign Performance Analysis Platform

- Built Python scripts to automate the analysis of marketing, voucher, and incentive investments, calculating campaign uplifts and ROI.
- Performed advanced **customer cohort analysis** using **pandas** and **SQL** to understand long-term customer value and retention patterns.
- Generated actionable recommendations for targeting customers with offers and promotions based on segment attributes and predicted behavior.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
