+353 899706156 | hariramakrrish@gmail.com | [LinkedIn](#) | Stamp 1G — Eligible to work full-time in Ireland

PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Developed **Java Spring Boot** microservices to orchestrate **LLM-powered agents**, implementing **OpenAI specs** for tool definitions and **MCP** client/server interactions, supporting **99.95% API uptime**.
- Engineered **tool execution** layers and **function calling** capabilities within agentic workflows, incorporating retry mechanisms and safety guardrails to achieve a **15% reduction** in agent error rates.
- Built event-driven pipelines for agent requests and context assembly using **RAG** and embeddings, enabling efficient data retrieval and achieving **sub-second response times** for critical data lookups.
- Integrated agent services with **GitHub** via webhooks and API calls to automate **pull request review bots**, reducing manual review cycles by an average of **20%**.
- Implemented comprehensive **observability** for agent services, including detailed logs, metrics, and traces using **Dynatrace**, and developed dashboards that improved issue detection time by **30%**.
- Authored extensive **unit and integration tests** for agent modules and APIs, contributing to a **95% test coverage** rate and automating builds and deployments through **Jenkins** pipelines.

SKILLS

Languages – Java, Python, SQL, R

Frameworks/Libraries – Spring Boot, pandas, NumPy, scikit-learn, Flask, FastAPI

AI/ML – LLMs, OpenAI specs, Claude models, RAG, Embeddings, Agentic Workflows, Function Calling, MCP

Cloud/DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Jenkins, GitHub, Git

Databases – PostgreSQL, MySQL, Oracle

Observability/Tools – Splunk, Dynatrace, Jira, Confluence, Linux

BI/Analytics – Power BI, Tableau, DAX, Power Query, Data Modelling

EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of
Ireland, Dublin**

02/2026

**BACHELOR OF ENGINEERING in Computer Science – SNS College
of Technology, Coimbatore, India**

01/2021

PROJECTS

Intelligent Code Review Assistant

- Developed a **Java Spring Boot** application that integrates with **GitHub APIs** to provide automated code review suggestions for pull requests.
- Implemented agentic workflows powered by **OpenAI's GPT-4** model to analyze code changes, identify potential bugs, and suggest improvements based on predefined coding standards.

- Designed and deployed the service on **AWS**, ensuring high availability and integrating with **Jenkins** for CI/CD, processing an average of **50 pull requests** daily.

Real-time Transaction Monitoring Dashboard

- Built a **Java Spring Boot** backend service to ingest and process high-volume financial transaction data, enabling real-time monitoring.
- Developed **REST APIs** for data retrieval and integrated with **PostgreSQL** for persistent storage, supporting complex queries for reconciliation workflows.
- Created interactive dashboards using **Power BI** to visualize transaction flows, identify anomalies, and track key operational metrics, improving issue detection by **25%**.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
