PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Developed and operated backend services for enterprise applications, contributing to new feature development and bug resolution for existing Java Spring Boot applications.
- Automated data extraction and transformation processes using **Python scripting**, improving ETL pipeline efficiency by **18%** and reducing manual data handling.
- Managed production support for enterprise applications, responding to P1/P2 incidents and ensuring adherence to strict SLAs through proactive monitoring with **Splunk** and **Dynatrace**.
- Designed and implemented REST APIs to facilitate cross-system integrations between enterprise business platforms and ERP modules, enhancing data flow and operational coherence.
- Collaborated with cross-functional teams, including business analysts and operations, to define requirements, support User Acceptance Testing (UAT), and perform post-implementation triage for financial-services dashboards.
- Built and maintained interactive dashboards and reports using **Power BI**, translating complex data models into actionable insights for business stakeholders and improving decision-making speed by **15%**.

SKILLS

Languages – Java, Python, JavaScript, SQL, R

Backend Development – Spring Boot, REST APIs, Microservices, SOA

Cloud Platforms – AWS (EC2, S3, Lambda, CloudWatch), GCP, Azure

Databases – PostgreSQL, MySQL, Oracle, SQL Server

Frontend Development – HTML, CSS, Angular, React

DevOps & CI/CD – Jenkins, Git, Docker, Maven, Gradle, Jira, Confluence

Data Analytics & BI – Power BI, Tableau, DAX, Power Query, RStudio, pandas, NumPy, scikit-learn

EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of
Ireland, Dublin**

02/2026

**BACHELOR OF ENGINEERING in Computer Science – SNS College
of Technology, Coimbatore, India**

01/2021

PROJECTS

Enterprise Payments Operations Dashboard

- Developed backend Java Spring Boot services to process and monitor financial transaction messages, ensuring high availability for critical payment flows.
- Implemented automated alerting mechanisms for failed or delayed transactions, reducing incident response times by **22%** and improving operational oversight.

- Integrated with PostgreSQL databases for storing transaction logs and generating audit trails, supporting regulatory compliance and reconciliation workflows.

Scalable Application Monitoring and Alerting System

- Engineered a monitoring solution using Python and AWS CloudWatch to track application performance metrics across a fleet of 100+ EC2 instances, detecting anomalies **30%** faster.
- Designed and deployed containerized microservices using Docker and Jenkins for CI/CD, enabling rapid and reliable deployment of new monitoring features.
- Developed REST APIs for external systems to ingest real-time operational data, providing a unified view of system health and performance.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
