PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India 09/2021 – 01/2025 (3.5 Years)

- Managed the end-to-end lifecycle of **Microsoft-based infrastructure solutions**, ensuring **24x7 operational readiness** and alignment with strict SLAs.
- Designed and implemented secure, scalable, and resilient **Windows Server (2019/2022)** and **Active Directory** environments, supporting over 500 enterprise users.
- Automated **vulnerability remediation** and security patching processes across a hybrid cloud environment, reducing critical exposure windows by **40%**.
- Developed comprehensive technical documentation for **system administration** tasks and **audit compliance**, improving audit readiness by an estimated **30%**.
- Provided escalation support for complex technical issues, mentoring junior staff and contributing to a **15% improvement** in first-call resolution rates.
- Implemented and tested **high availability and disaster recovery solutions** for critical financial operations, achieving a **99.99% uptime** target.

SKILLS

Microsoft Infrastructure – Windows Server 2019, Windows Server 2022, Windows Server 2025, Active Directory, Group Policy, Windows 11

Cloud & Virtualization – VMware, AWS (EC2, S3, Lambda, CloudWatch), Docker

Security & Networking – Cyber Security, Security Best Practices, Networking Concepts, High Availability, Disaster Recovery

Automation & Scripting – Python, REST APIs, Ansible

Databases & Storage – PostgreSQL, MySQL, Oracle, Storage Technologies

Monitoring & Logging – Splunk, Dynatrace, CloudWatch

Operations & Methodologies – ITIL, Agile/Scrum, Change Management, Incident Response, Audits, Compliance

EDUCATION AND TRAINING

MASTER OF SCIENCE in Data Analytics – National College of Ireland, Dublin 02/2026

BACHELOR OF ENGINEERING in Computer Science – SNS College of Technology, Coimbatore, India 01/2021

PROJECTS

Secure Financial Transaction Monitoring Dashboard

- Engineered a **payments operations dashboard** using **Java Spring Boot** and **PostgreSQL** to monitor high-volume transaction flows for a financial services client.

- Implemented automated alerting for failed payment messages and reconciliation workflows, ensuring compliance with **GDPR** and other regulatory requirements.
- Collaborated with business analysts to define requirements and provided post-implementation support, improving operational visibility by **25%**.

Enterprise Resource Planning System Integration Hub

- Developed and maintained **REST APIs** for seamless integration between ERP modules and other enterprise business systems, facilitating cross-system data flows.
- Managed change control processes for system configuration updates and coordinated User Acceptance Testing (UAT) across interconnected platforms.
- Reduced data synchronization errors by **18%** through improved API error handling and database validation routines.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
