PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India **09/2021 – 01/2025 (3.5 Years)**

- Managed and maintained a fleet of **50+ printers** across multiple floors, ensuring **99.5% uptime** and operational readiness each morning.
- Executed weekly **preventative maintenance schedules** for all printing devices, reducing critical hardware failures by **15%** quarter-over-quarter.
- Prepared and distributed **weekly status reports** on printer performance, toner levels, and maintenance activities to client IT management and stakeholders.
- Supported **post room operations** including document binding, laminating, and managing courier bookings, processing an average of **100+ items** per week.
- Automated **toner and parts ordering** by developing a Python script that monitored inventory levels and generated procurement requests, saving an estimated **10 hours** of manual work monthly.
- Provided **flexible facilities support**, assisting with mail collection, managing print queues for onsite staff, and addressing user queries related to printing operations.

SKILLS

Print Engineering & IT Support – Printer Maintenance, Preventative Maintenance, Stock Checks, Toner Management, IT Support, Facilities Support, Post Room Operations

Core Technologies – Python, SQL, Java, Spring Boot, REST APIs, AWS, Docker

Operational Tools – Splunk, Dynatrace, Jira, Confluence, Jenkins, Git

Databases – PostgreSQL, MySQL, Oracle

Analytics & BI – Power BI, Tableau, DAX, Power Query, Data Modelling

Operating Systems – Linux, Windows

EDUCATION AND TRAINING

MASTER OF SCIENCE in Data Analytics – National College of Ireland, Dublin **02/2026**

BACHELOR OF ENGINEERING in Computer Science – SNS College of Technology, Coimbatore, India **01/2021**

PROJECTS

Automated Printer Fleet Monitoring System

- Developed a Python-based application to monitor the status of **50+ network printers**, collecting operational data via SNMP and custom scripts.
- Integrated with **PostgreSQL** to store historical performance metrics and toner levels, enabling trend analysis and predictive maintenance planning.

- Generated automated reports detailing device health, paper jams, and toner status, which were used by the facilities team to proactively address issues.

Centralized Document Management Dashboard

- Designed and implemented a **Power BI dashboard** to visualize key metrics for post room operations, including mail volume, courier dispatch times, and binding/laminating job turnaround.
- Developed complex **DAX measures** to calculate service level adherence and identify bottlenecks in document processing workflows.
- Connected to multiple data sources, including CSV logs from franking machines and manual entry spreadsheets, using **Power Query** for ETL and data cleansing.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
