

# HARIRAMAKRRISHNAN RAMACHANDRAN

+353 899706156 | hariramakrrish@gmail.com | [LinkedIn](#) | Stamp 1G — Eligible to work full-time in Ireland

## PROFESSIONAL EXPERIENCE

**SOFTWARE ENGINEER – HCL Technologies | Chennai, India**

**09/2021 – 01/2025 (3.5 Years)**

- Analyzed **network data** from GIS, SAP, and RMDS to identify load profile anomalies and potential system improvements, enhancing data accuracy by **15%**.
- Executed **power flow studies** using system models to validate output against recorded measurements, resolving discrepancies and improving system reliability.
- Collaborated with **software providers** to facilitate seamless data transition from Workbook and Apex to the NMS, ensuring continuity of operations.
- Developed **Python scripts** to automate data ingestion and validation for microgeneration and weather data feeds, reducing manual processing time by **40%**.
- Managed incident response for production systems, addressing P1/P2 incidents within strict SLAs, contributing to a **99.9%** system uptime.
- Supported enterprise business systems by coordinating change management processes and performing UAT for interconnected systems, ensuring smooth operational transitions.

## SKILLS

**Core Technologies** – Java, Spring Boot, Python, SQL, REST APIs, Linux, Git, Jenkins, Docker

**Cloud & Infrastructure** – AWS (EC2, S3, Lambda, CloudWatch)

**Data Analysis & BI** – Power BI, Tableau, DAX, Power Query, R, pandas, NumPy, scikit-learn

**Databases** – PostgreSQL, MySQL, Oracle

**Monitoring & Support** – Splunk, Dynatrace, CloudWatch

**Methodologies** – Agile, Scrum, Change Management

**Domain** – Operational Technology (OT), Network Operations, Power Systems Analysis, Data Warehousing, ERP Systems

## EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of  
Ireland, Dublin**

**02/2026**

**BACHELOR OF ENGINEERING in Computer Science – SNS College  
of Technology, Coimbatore, India**

**01/2021**

## PROJECTS

### **Network Data Validation and Analysis Platform**

- Developed a Python-based data pipeline to ingest and process network data from various sources including GIS and SAP.
- Implemented automated checks and balances to validate data integrity and identify discrepancies in load profiles, improving data accuracy by **20%**.

- Created interactive dashboards in **Power BI** to visualize network characteristics and load patterns for operational teams.

#### **Production Systems Performance Monitoring**

- Configured and maintained monitoring tools like **Splunk** and **Dynatrace** for enterprise applications supporting financial services operations.
- Managed incident response and root cause analysis for critical system issues, ensuring adherence to strict SLAs and minimizing downtime.
- Automated report generation for transaction monitoring and reconciliation workflows using **Python** and **SQL** across PostgreSQL and Oracle databases.

### **ACHIEVEMENTS & CERTIFICATIONS**

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
