PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Managed the end-to-end laboratory lifecycle for samples, including internal movement, external shipment coordination, complex sample pulls, and reference material inventory, ensuring **99.8% accuracy** in tracking.
- Administered all sample-related documentation, including receipt and review of external sample results, and accurate entry onto **LIMS**, completing records on time and in line with **GMP** and data integrity standards.
- Generated comprehensive **environmental monitoring and water analysis reports**, delivering agreed quality and business metrics, and proactively identified opportunities for process optimisation, leading to a **15% reduction** in reporting turnaround time.
- Supported laboratory analytical personnel by responding to ad-hoc requests for sample pulls and sample-related information, providing seamless service delivery and maintaining **SLA adherence**.
- Collaborated with client personnel and suppliers to meet or exceed client requirements, ensuring delivery against client processes and deliverables, and demonstrating flexibility to support any area of the business as required.
- Initiated and maintained all documentation, systems, and training records in accordance with company, client, safety, housekeeping, and quality standards, escalating deviations to management for prompt resolution.

PROJECTS

Sample Tracking & Reporting Dashboard

- Developed a Python-based application to automate the tracking of samples through various laboratory stages, integrating with existing systems for real-time status updates.
- Implemented data validation rules and automated report generation for key metrics, improving data accuracy and reducing manual reporting effort by **40%**.
- Designed and built a Power BI dashboard to visualise sample throughput, turnaround times, and quality control data, providing actionable insights to laboratory management.

Automated Data Pipeline for Regulatory Compliance

- Constructed a Python ETL pipeline to extract, transform, and load data from disparate sources into a central data warehouse, ensuring compliance with regulatory requirements.
- Integrated automated data quality checks and reconciliation workflows, identifying and resolving discrepancies to maintain data integrity and support audit trails.
- Deployed and monitored the pipeline on AWS infrastructure using Jenkins for CI/CD, achieving **99.9% uptime** and ensuring timely data availability for analysis.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
