PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India 09/2021 – 01/2025 (3.5 Years)

- Administered and supported the **IBM WebMethods integration platform**, including **Integration Server** and **API Gateway**, ensuring stable operation for enterprise-wide business processes.
- Managed the **build and release process** for multiple application environments, coordinating deployments and configuration changes across development, staging, and production landscapes.
- Developed and maintained **CI/CD pipelines** using **Jenkins** and **Git**, automating build, test, and deployment stages, reducing manual release effort by **40%**.
- Provided operational support for a financial-services dashboard, including **incident response**, root cause analysis, and system monitoring using **Splunk** and **Dynatrace**, achieving **99.95%** uptime.
- Automated data extraction and transformation tasks using **Python** scripts, supporting operational reporting and ETL processes, improving data availability for business analysts by **30%**.
- Configured and managed **Linux** environments, including shell scripting for automation, log analysis, and scheduled job execution via **cron**.

SKILLS

Integration Platforms – IBM WebMethods, Integration Server, Deployer, API Gateway.

DevOps & CI/CD – Jenkins, Git, Bitbucket, Bash, Ansible, Docker, Kubernetes, Terraform.

Operating Systems – Linux (RHEL), Windows.

Scripting & Programming – Python, Java, Spring Boot, REST APIs, SOAP.

Cloud & Infrastructure – AWS (EC2, S3, Lambda, CloudWatch), Azure.

Monitoring & Observability – Splunk, Dynatrace, Datadog, CloudWatch.

Databases & Data Management – PostgreSQL, MySQL, Oracle, Data Warehousing.

EDUCATION AND TRAINING

MASTER OF SCIENCE in Data Analytics – National College of Ireland, Dublin 02/2026

BACHELOR OF ENGINEERING in Computer Science – SNS College of Technology, Coimbatore, India 01/2021

PROJECTS

Automated Payments Reconciliation Service

- Developed a **Python**-based service to automate the reconciliation of financial transaction data from disparate sources, reducing manual processing time by **60%**.
- Implemented REST APIs using **Flask** for data ingestion and status reporting, integrating with existing enterprise systems.

- Deployed the service on **AWS EC2** instances managed via **Jenkins** CI/CD pipelines, ensuring reliable and scalable operation for critical financial workflows.

Cross-Environment Deployment Automation

- Engineered automated deployment pipelines using **Jenkins** and **Ansible** to manage application releases across multiple **Linux** environments (dev, staging, prod).
- Containerized applications using **Docker**, enabling consistent deployments and simplifying environment setup for development and QA teams.
- Integrated **Git** for version control and automated build triggers, improving release cadence and reducing deployment errors by **25%**.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
