PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Automated routine IT support tasks using **Python scripting**, reducing average ticket resolution time for common queries by **18%**.
- Developed and maintained **Java Spring Boot REST APIs** for integrating enterprise systems, enhancing data flow efficiency by **22%**.
- Supported production environments for a financial-services client, monitoring transaction flows and resolving P1/P2 incidents on a **payments operations dashboard**, sustaining 99.9% uptime.
- Created interactive **Power BI dashboards** with complex **DAX measures** and data models to visualize key operational KPIs for business stakeholders, improving data-driven decision-making.
- Managed change control processes for enterprise business systems, coordinating UAT and providing post-go-live support for system updates, ensuring seamless integration.
- Analyzed and resolved user queries for **Microsoft 365** applications including Outlook, Teams, and SharePoint, contributing to improved user productivity.

SKILLS

Programming Languages – Python, Java, SQL, R

Frameworks & Libraries – Spring Boot, pandas, NumPy, scikit-learn, Flask, FastAPI

Cloud & DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Jenkins, Git

Databases – PostgreSQL, MySQL, Oracle

BI & Data Visualization – Power BI, DAX, Power Query, Tableau

Tools & Platforms – Splunk, Dynatrace, Jira, Confluence, Linux

Methodologies – Agile, Scrum

EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of
Ireland, Dublin**

02/2026

**BACHELOR OF ENGINEERING in Computer Science – SNS College
of Technology, Coimbatore, India**

01/2021

PROJECTS

Automated IT Support Workflow Platform

- Developed a Python-based application to automate common IT support requests, including software installation and user onboarding documentation generation.
- Integrated with internal ticketing systems via **REST APIs** to streamline ticket assignment and status updates, reducing manual intervention by **30%**.

- Documented the automation scripts and workflows, creating user guides and FAQs to facilitate knowledge sharing across the IT support team.

Financial Transaction Monitoring Dashboard

- Designed and implemented a comprehensive dashboard using **Power BI** and **DAX** to visualize real-time transaction processing status for a financial services client.
- Developed data pipelines using **Python** and **SQL** to extract, transform, and load transaction data from multiple sources into a data warehouse, enabling detailed reconciliation workflows.
- Collaborated with business analysts to define key metrics and alerts for identifying failed or delayed payment messages, directly supporting operational efficiency.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
