PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Administered and maintained **Microsoft 365** services including user accounts, licenses, **Teams**, and **Exchange**, supporting over 100 staff members.
- Provided day-to-day **IT support** to internal staff for hardware, software, and access issues, resolving an average of 15 tickets per week with a 95% satisfaction rate.
- Managed the onboarding and offboarding process for new and departing users, configuring accounts, permissions, and devices across the organization's infrastructure.
- Implemented and maintained IT security measures, including **user access controls**, multi-factor authentication (MFA), and device security policies, enhancing overall system security by **30%**.
- Supported the development and maintenance of **Power BI dashboards**, structuring data across internal systems to enable improved reporting and data consistency for key operational metrics.
- Assisted in automating internal processes using **Python scripting** and cloud-based tools, reducing manual effort for routine tasks by approximately **20%**.

SKILLS

Microsoft 365 – User Administration, License Management, Teams, Exchange, SharePoint, MFA

IT Support & Systems Administration – End-User Support, Hardware Maintenance, Software Troubleshooting, Onboarding/Offboarding, Vendor Management

Cloud & Security – Cloud-Based Systems, IT Security, Data Protection, GDPR Compliance, Access Controls, Device Security

Data & Reporting – Power BI, Data Structuring, Reporting, Data Quality Improvement, Power Automate

Programming & Automation – Python, Scripting, Process Automation

Operating Systems & Infrastructure – Linux, Shell Scripting, Laptops, Printers, Network Equipment

Web & Events – Website Support, Event Technology Support

EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of
Ireland, Dublin**

02/2026

**BACHELOR OF ENGINEERING in Computer Science – SNS College
of Technology, Coimbatore, India**

01/2021

PROJECTS

Internal Operations Dashboard Enhancement

- Developed and deployed interactive **Power BI dashboards** to visualize key performance indicators for internal operations, improving data visibility for management by **40%**.
- Structured and cleansed data from multiple sources using **Power Query** and SQL, ensuring data consistency and accuracy for reporting purposes.

- Collaborated with business stakeholders to gather requirements for new reporting features, translating needs into actionable data models and visualizations.

Automated IT Support Ticket Triage System

- Designed and implemented a **Python**-based system to automatically categorize and triage incoming IT support tickets, reducing manual assignment time by **25%**.
- Integrated the system with the organization's ticketing platform via REST APIs, ensuring seamless data flow and automated workflow initiation.
- Configured rules-based logic to identify critical issues and escalate them to senior support staff, improving incident response times for high-priority issues.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
