PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India 09/2021 – 01/2025 (3.5 Years)

- Responded to customer support cases within defined **Service Level Agreements**, ensuring timely resolution for enterprise clients.
- Proactively identified and resolved potential system issues, preventing recurrence and improving overall customer experience by **15%**.
- Gathered detailed logs and configuration information from enterprise customers to accurately reproduce and diagnose reported issues with **Forcepoint products**.
- Researched and documented solutions in the internal **Knowledge Base**, contributing to a **20%** reduction in repeat issue resolution times.
- Managed and resolved customer escalations by coordinating with internal engineering teams, ensuring customers were kept informed of progress and achieving a **95%** satisfaction rating on resolved escalations.
- Documented all customer interactions and case details in the tracking database, maintaining accurate records for over **500 cases**.

SKILLS

Core Support – Troubleshooting, Incident Management, Problem Resolution, Case Management, Escalation Management, SLA Management, Customer Service.

Operating Systems – Windows Application Support, Linux Command-Line, Service Management, Event Viewer, Registry.

Networking – TCP/IP, DNS, Layer 2/3 Troubleshooting, Packet Capture, Wireshark, tcpdump.

Cloud & Containers – Kubernetes Fundamentals, Pod-based Deployments, AWS, S3-compatible Object Storage, Grafana.

Security Concepts – Information Security, Data Classification, DLP, Data Posture Management.

Developer Tools – Git, Jenkins, Jira, Confluence, Docker.

Data & Logging – Log Analysis, Distributed Systems, Elasticsearch, Kafka, Python.

EDUCATION AND TRAINING

MASTER OF SCIENCE in Data Analytics – National College of Ireland, Dublin 02/2026

BACHELOR OF ENGINEERING in Computer Science – SNS College of Technology, Coimbatore, India 01/2021

PROJECTS

Enterprise Application Reliability Dashboard

- Developed a real-time monitoring dashboard using **Python** and **Flask** to visualize application health metrics from distributed systems.

- Integrated with **Splunk** and **CloudWatch** APIs to aggregate logs and performance data, enabling proactive identification of potential issues across 50+ microservices.
- Implemented automated alerting rules based on error rates and latency spikes, reducing critical incident response time by **30%**.

Kubernetes-based Endpoint Security Deployment

- Configured and managed **Kubernetes** clusters for deploying microservices related to endpoint data loss prevention.
- Integrated cloud storage connectors for **SharePoint Online** and **OneDrive**, ensuring secure data handling and compliance for enterprise clients.
- Analyzed system logs and packet captures using **Wireshark** to troubleshoot connectivity and performance issues in a multi-tenant SaaS environment.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
