PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Provided **face-to-face IT support** for end-users in the Dublin office, resolving technical issues and ensuring **timely resolution** of IT incidents.
- Managed the **configuration and preparation of hardware and software** installations for new and existing end-users, ensuring efficient deployment.
- Developed and updated **technical documentation** and user guides, sharing knowledge with the IT team to improve support processes and reduce recurring issues.
- Responded to and managed **IT incidents** via **telephony and ticketing systems**, maintaining a customer-focused approach and achieving a **95% first-contact resolution rate** for common issues.
- Automated routine IT tasks using **Python scripting**, streamlining processes such as user onboarding and software deployment, saving an estimated **10 hours per week**.
- Collaborated with wider IT teams to troubleshoot complex issues and implement solutions, demonstrating initiative and a proactive approach to problem-solving across **multiple operating systems**.

SKILLS

IT Support – Face-to-face support, Incident Management, Problem Solving, Customer Service, Ticketing Systems, Telephony Systems

Hardware & Software – Configuration, Installation, Deployment, Windows Desktop Operating Systems

Operating Systems & Networking – Linux, Windows Server Operating Systems, Active Directory, Group Policy, DNS, DHCP, Cisco Networking Systems

Scripting & Automation – Python

Databases – SQL Query Language

Documentation – Technical Documentation, Knowledge Sharing, User Guides

Cloud & Virtualization – AWS (EC2, S3, Lambda, CloudWatch), Docker

EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of
Ireland, Dublin**

02/2026

**BACHELOR OF ENGINEERING in Computer Science – SNS College
of Technology, Coimbatore, India**

01/2021

PROJECTS

Enterprise Systems Support Dashboard

- Developed and maintained a **dashboard for monitoring enterprise systems**, integrating data from various sources to provide real-time operational insights.
- Automated **report generation** using Python scripts, consolidating data from SQL databases (PostgreSQL, Oracle) and reducing manual reporting time by **40%**.

- Supported critical production environments with strict SLAs, ensuring high availability and adherence to **GDPR** compliance standards for sensitive operational data.

End-User Device Management Automation

- Created Python scripts to automate the **configuration and assetization of new user devices**, reducing setup time per device by **30%**.
- Implemented standardized **software installations** across Windows and Linux environments, ensuring consistency and security compliance for end-user workstations.
- Documented deployment procedures and troubleshooting steps for common hardware and software issues, contributing to a shared knowledge base for the IT support team.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
