PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Architected and developed scalable banking applications on **AWS**, focusing on reliability and security across the full SDLC.
- Managed cloud infrastructure deployments and updates using **Terraform**, adhering to Infrastructure as Code principles and reducing manual intervention by **40%**.
- Drove **CI/CD** pipeline improvements, integrating automated testing and deployment strategies to accelerate delivery cycles for cloud and on-premise systems.
- Provided technical leadership through code reviews and mentoring, promoting **clean coding standards** and best practices for a team of 5 engineers.
- Enhanced **Java Spring Boot** microservices, developing REST APIs and resolving production issues to maintain **99.95%** uptime for critical financial operations.
- Supported cross-functional teams including Business Analysis and QA, ensuring seamless delivery of features for a **payments operations dashboard** and meeting strict regulatory requirements.

SKILLS

Cloud Platforms – AWS (EC2, Lambda, ECS, RDS, S3, IAM), Terraform, Infrastructure as Code

Programming Languages – Java, Python, JavaScript, TypeScript, SQL, R

Frameworks & Libraries – Spring Boot, REST APIs, React

Databases – PostgreSQL, MySQL, Oracle

DevOps & CI/CD – Jenkins, Git, Docker, CI/CD

Tools & Technologies – Splunk, Dynatrace, Jira, Confluence, IBM MQ

Domain Knowledge – Financial Services, Banking, Payments Operations, ERP Systems

EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of
Ireland, Dublin**

02/2026

**BACHELOR OF ENGINEERING in Computer Science – SNS College
of Technology, Coimbatore, India**

01/2021

PROJECTS

Cloud-Native Payments Processing Platform

- Designed and implemented a microservices-based platform on **AWS** using **Java Spring Boot** and **PostgreSQL** to handle high-volume transaction data.
- Developed automated **CI/CD pipelines** with **Jenkins** and **Docker**, enabling rapid deployment and reducing release times by **30%**.
- Integrated with messaging systems, processing over **1 million** payment messages daily with **99.9%** availability.

Automated Financial Operations Dashboard

- Built an interactive **Power BI** dashboard to visualize key operational metrics for financial transactions, improving reporting efficiency by **50%**.
- Developed data pipelines using **Python** and **SQL** for ETL processes, consolidating data from multiple sources into a central data warehouse.
- Implemented DAX measures and complex data models in **Power BI** to provide actionable insights for business stakeholders, supporting data-driven decision-making.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
