PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India **09/2021 – 01/2025 (3.5 Years)**

- Investigated and resolved product bug alerts within defined **SLA windows**, performing log analysis and reproduction attempts to validate crash rate anomalies for **enterprise applications**.
- Triaged potential bugs by reproducing issues and confirming root causes, escalating critical findings to **product engineers** and providing documented feedback loops.
- Collaborated with cross-functional **Engineering teams** to deliver hypotheses and insights, identifying resolution blockers and accelerating issue remediation.
- Generated concise, actionable summaries of complex technical issues, tailoring documentation for both **technical and non-technical audiences** to facilitate rapid decision-making.
- Managed the resolution lifecycle of product bugs and alerts using shared tracking tools, ensuring timely updates and maintaining detailed **audit trails**.
- Supported **transaction monitoring** and operational alerting for a financial-services client's payments operations dashboard, contributing to a 99.9% processing uptime.

SKILLS

Trust & Safety – Data Privacy, Data Protection, Privacy Protection, Trust and Safety

Developer Operations – Bug Triage, Root Cause Analysis, Log Analysis, Incident Response, Crash Rate Analysis

Collaboration & Communication – Cross-functional Collaboration, Technical Documentation, Stakeholder Communication, Feedback Loops

Tools & Technologies – Jira, Confluence, Splunk, Dynatrace, AWS CloudWatch

Programming & Scripting – Python, Java, SQL

Domain Knowledge – Financial Services Operations, Payments Processing, Enterprise Systems

EDUCATION AND TRAINING

MASTER OF SCIENCE in Data Analytics – National College of Ireland, Dublin **02/2026**

BACHELOR OF ENGINEERING in Computer Science – SNS College of Technology, Coimbatore, India **01/2021**

PROJECTS

Production Incident Triage and Resolution Platform

- Developed a Python-based alerting system to aggregate logs from various sources, automatically flagging potential product bug alerts for review.
- Implemented automated data validation checks within the platform, reducing manual effort in confirming alert validity by **40%**.

- Integrated with **Jira** for seamless ticket creation and tracking, ensuring efficient escalation to engineering teams and maintaining clear resolution lifecycles.

Financial Transaction Monitoring Dashboard

- Designed and built a **Power BI** dashboard to visualize real-time transaction flows and operational metrics for a financial-services client.
- Developed custom **DAX measures** to track key performance indicators, including successful transaction rates and failure alerts, improving operational visibility by **30%**.
- Automated data extraction and transformation using **Power Query** from PostgreSQL, ensuring timely and accurate reporting for business stakeholders.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
