

HARIRAMAKRRISHNAN RAMACHANDRAN

+353 899706156 | hariramakrrish@gmail.com | [LinkedIn](#) | Stamp 1G — Eligible to work full-time in Ireland

PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Researched and tested new **AI tools**, including prompt engineering for natural language models, to identify automation opportunities within operational workflows, reducing manual data entry tasks by **30%**.
- Developed and improved **AI-assisted workflows** for customer service teams by integrating chatbots and knowledge base systems, enhancing response accuracy by **25%** and decreasing average handling time.
- Assisted with the development of **AI knowledge bases** and documentation for internal teams and customer-facing agents, creating comprehensive guides and process documents that improved onboarding efficiency.
- Reviewed existing manual processes across CRM and spreadsheet systems, identifying and implementing automation solutions using **Python scripts** and API integrations, saving an estimated **15 hours** of weekly administrative work.
- Collaborated with management and cross-functional teams to understand business requirements, translating them into technical specifications for automation projects and AI tool implementations.
- Supported the rollout of new AI tools and automation workflows by training staff and documenting processes, ensuring smooth adoption and effective system integration across departments.

SKILLS

AI & Automation – AI tools, Prompt Engineering, Automation Platforms, Workflow Automation, AI Knowledge Bases, Chatbots, Voice Agents

Programming & Scripting – Python, API Integrations, Scripting

Data Analysis & BI – Spreadsheets, Data Analysis, Reporting Tools, Power BI, DAX, Power Query, Data Modelling

System Integration – CRM Systems, Phone Systems, APIs, Make, Zapier, n8n, Power Automate

Core Technologies – Java, Spring Boot, SQL, PostgreSQL, AWS, Docker, Linux, Git, Jenkins, Jira, Confluence

Methodologies – Agile, Scrum, Process Improvement, Research, Problem Solving

EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of
Ireland, Dublin**

02/2026

**BACHELOR OF ENGINEERING in Computer Science – SNS College
of Technology, Coimbatore, India**

01/2021

PROJECTS

AI-Powered Document Processing System

- Developed a proof-of-concept system using **Python** and cloud-based AI services to automate the extraction of key information from unstructured documents (e.g., invoices, reports).

- Integrated with document storage services (similar to **AWS S3**) and utilized prompt engineering techniques to refine AI model accuracy for specific data fields, achieving **90%** extraction precision.
- Created process documentation and user guides for the system, outlining workflows for ingestion, processing, and data validation, intended for use by operations teams.

Automated Reporting Dashboard

- Built an automated reporting dashboard using **Power BI** and **Python** to consolidate data from disparate sources (CRM, spreadsheets), reducing manual report generation time by **40%**.
- Designed interactive visualizations and DAX measures to track key business metrics and identify trends for sales and operations teams, directly supporting improved decision-making.
- Implemented data pipelines using Python scripts to regularly ingest and transform data, ensuring the dashboard always presented up-to-date information.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
