PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Managed essential administrative tasks for the Procurement Department, ensuring **streamlined operations** and maintaining efficiency across daily workflows.
- Created and managed **purchase orders** within the **SAGE** ERP system, processing an average of 50+ orders weekly and ensuring accurate data entry.
- Compiled and produced comprehensive **monthly spend reports**, analysing financial data to identify cost-saving opportunities, contributing to a **15% reduction** in departmental expenditure over six months.
- Inputted **Proof of Delivery (POD)** information into **SAGE**, maintaining meticulous records and resolving discrepancies that impacted delivery timelines by **20%**.
- Monitored **vendor performance**, identifying underperforming suppliers and initiating follow-up actions that improved delivery reliability by **10%** within a quarter.
- Facilitated the setup of **new vendor accounts**, coordinating with internal teams and external partners to ensure a smooth onboarding process and compliance with company standards.

SKILLS

Procurement & Operations – Purchase Order Management, Vendor Performance Monitoring, Spend Reporting, Proof of Delivery (POD) Input, New Vendor Onboarding

ERP Systems – SAGE

Reporting & Analytics – Monthly Spend Reports, Data Analysis, Data Entry, Issue Resolution, Report Generation

Software & Tools – Microsoft Office Suite, Excel (Intermediate), Confluence, Jira

Professional Competencies – Attention to Detail, Communication (Verbal & Written), Ownership & Accountability, Team Collaboration, Problem Solving

EDUCATION AND TRAINING

MASTER OF SCIENCE in Data Analytics – National College of Ireland, Dublin

02/2026

BACHELOR OF ENGINEERING in Computer Science – SNS College of Technology, Coimbatore, India

01/2021

PROJECTS

Procurement Operations Dashboard Enhancement

- Developed a **Power BI dashboard** to visualise key procurement metrics including PO status, vendor delivery times, and monthly spend.
- Automated the generation of **monthly spend reports** using **Power Query**, reducing manual compilation time by **50%** and improving data accuracy.

- Integrated data from **SAGE** and vendor logs to provide a unified view of procurement performance, aiding in identifying bottlenecks and improving operational efficiency.

Enterprise System Data Reconciliation Tool

- Built a **Python** script to automate the reconciliation of transaction data between an ERP system and a financial services dashboard.
- Implemented **SQL queries** across **PostgreSQL** and **Oracle** databases to extract and validate large datasets, ensuring data integrity for **transaction monitoring**.
- Designed the system to flag discrepancies automatically, reducing manual reconciliation efforts by **30%** and improving the accuracy of audit trails.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
