PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Conducted in-depth Enhanced Due Diligence (EDD) investigations on higher-risk customers and fundraisers using established investigative frameworks, assessing potential financial crime risks including fraud and AML/CFT concerns.
- Evaluated fundraiser, account, and transactional activity to identify unusual patterns and assess associated risks, determining appropriate investigative or escalation steps for complex cases.
- Gathered and analyzed information from internal systems, open-source intelligence, and third-party data sources to support risk assessments and document comprehensive investigative findings in case management systems, ensuring defensible decision-making.
- Collaborated with cross-functional partners including Payments Risk, Legal, and Compliance to investigate complex cases and mitigate platform abuse, contributing to a safer user environment.
- Provided technical guidance and quality feedback to fellow analysts, supporting investigative consistency and adherence to team standards for Enhanced Due Diligence processes.
- Analyzed complex organizational structures and operational activity to assess legitimacy and risk exposure, contributing to the overall risk mitigation strategy.

SKILLS

Risk Management – Enhanced Due Diligence (EDD), Financial Crime, AML/CFT, Fraud Detection, Risk Assessment, Sanctions Screening, Politically Exposed Persons (PEPs).

Investigation & Analysis – Open Source Intelligence (OSINT), Transaction Monitoring, Pattern Identification, Data Analysis, Risk Mitigation, Case Management.

Tools & Technologies – Jira, Confluence, Splunk, Dynatrace, PostgreSQL, MySQL, Oracle, AWS, Docker, Jenkins, Git.

Programming & Scripting – Python, Java, Spring Boot, SQL.

Data Visualization & BI – Power BI, Tableau, DAX, Power Query.

Domain Knowledge – Payments Operations, Reconciliation Workflows, ERP Systems, GDPR Compliance.

EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of
Ireland, Dublin**

02/2026

**BACHELOR OF ENGINEERING in Computer Science – SNS College
of Technology, Coimbatore, India**

01/2021

PROJECTS

Financial Crime Risk Assessment Dashboard

- Developed a **Power BI** dashboard to visualize key risk indicators for financial crime, integrating data from transaction monitoring and customer risk profiles.

- Implemented **DAX** measures to calculate risk scores and identify high-risk entities, reducing manual review time by **20%**.
- Collaborated with business analysts to refine reporting requirements, ensuring the dashboard provided actionable insights for the Trust & Safety team.

Automated Transaction Monitoring Service

- Built a **Python**-based service to automate the monitoring of transaction flows within a financial-services operations dashboard, identifying anomalies and potential fraud patterns.
- Integrated with **PostgreSQL** databases to query transaction data and implemented alerting mechanisms via **Splunk** for critical events.
- Managed CI/CD pipelines using **Jenkins** for automated testing and deployment of the monitoring service, ensuring **99.9%** uptime for production support.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
