PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India **09/2021 – 01/2025 (3.5 Years)**

- Guided customers through assessments of legacy application environments, recommending modernization roadmaps for infrastructure and application updates on Google Cloud.
- Developed and demonstrated prototypes of Google Cloud products, integrating them within customer and partner environments to showcase capabilities.
- Shared enterprise infrastructure modernization strategies, supporting technical relationships with customers through advocacy and solution briefings.
- Collaborated with cross-functional teams to identify and qualify business opportunities, addressing customer technical objections and resolving blockers.
- Recommended integration strategies, enterprise architectures, and application infrastructure for implementing solutions on Google Cloud.
- Supported production environments for a financial-services client's payments operations dashboard, monitoring transaction flows and resolving P1/P2 incidents to maintain **99.9% uptime**.

SKILLS

Cloud Infrastructure – Google Cloud Platform, AWS, CloudWatch, EC2, S3, Lambda, Containerization, Docker

Databases – Relational Databases, PostgreSQL, MySQL, Oracle, NoSQL Databases, Big Data Technologies

Software Development – Java, Spring Boot, Python, REST APIs, Application Development, Distributed Systems

Engineering & Operations – Infrastructure Engineering, Cloud Infrastructure Engineering, On-Premise Infrastructure Engineering, Virtualization, WAN/Internet Technologies, SaaS, PaaS, IaaS

Data & AI – Data Analytics, Machine Learning, AI Solutions, Data Warehousing, ETL, Power BI, DAX, Tableau, R, pandas, NumPy, scikit-learn

Methodologies & Tools – Agile, Scrum, CI/CD, Jenkins, Git, Jira, Confluence, Kubernetes, Shell Scripting

EDUCATION AND TRAINING

MASTER OF SCIENCE in Data Analytics – National College of Ireland, Dublin **02/2026**

BACHELOR OF ENGINEERING in Computer Science – SNS College of Technology, Coimbatore, India **01/2021**

PROJECTS

Cloud Infrastructure Modernization for Financial Services

- Assessed existing on-premise infrastructure and legacy applications for a financial services client, identifying areas for modernization and cloud migration.
- Designed integration strategies and recommended enterprise architectures, including containerization using **Docker** and orchestration with **Kubernetes**, for new cloud-native applications.

- Developed technical roadmaps and presented proof-of-concept solutions on **Google Cloud Platform** to stakeholders, demonstrating benefits for scalability and reliability.

Payments Transaction Monitoring Dashboard

- Developed and maintained a **Java Spring Boot** application for a financial services operations dashboard, focusing on monitoring transaction flows and operational alerting.
- Implemented automated data pipelines using **Python** and **SQL** (PostgreSQL) to ingest and process financial transaction messages, reducing manual oversight by **40%**.
- Supported production incidents and managed change control processes, ensuring adherence to strict SLAs and regulatory awareness for the payments processing system.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
