PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India 09/2021 – 01/2025 (3.5 Years)

- Designed and implemented scalable data pipelines and ETL/ELT processes using **Python** and **SQL**, processing over 1TB of daily data for enterprise business systems.
- Developed and maintained robust data infrastructure, optimizing data models that improved query performance by **30%** for critical business intelligence dashboards.
- Collaborated with cross-functional stakeholders, including business analysts and data scientists, to translate analytical requirements into production-grade data solutions.
- Engineered **REST APIs** and managed data flows across interconnected systems, supporting enterprise resource planning (ERP) modules and operational platforms.
- Managed production support for financial-services client dashboards, performing incident response for P1/P2 issues and ensuring **99.9%** uptime for transaction monitoring workflows.
- Authored technical design documents and conducted code reviews to advocate for data quality and proactively resolve complex bugs in distributed data systems.

SKILLS

Data Engineering – ETL, ELT, Data Pipelines, Data Modeling, Distributed Data Systems, Data Warehousing.

Programming Languages – Python, SQL, Java, R.

Databases – PostgreSQL, MySQL, Oracle, NoSQL concepts.

Cloud & Infrastructure – AWS (EC2, S3, Lambda, CloudWatch), Docker, Linux.

BI & Visualization – Power BI, Tableau, DAX, Power Query.

Development Tools – Git, Jenkins, Jira, Confluence.

EDUCATION AND TRAINING

MASTER OF SCIENCE in Data Analytics – National College of Ireland, Dublin 02/2026

BACHELOR OF ENGINEERING in Computer Science – SNS College of Technology, Coimbatore, India 01/2021

PROJECTS

Scalable Data Pipeline for Financial Operations Analytics

- Developed an automated data pipeline using **Python** and **SQL** to ingest, transform, and load transaction data from multiple sources for a financial-services dashboard.
- Implemented data quality checks and monitoring, reducing data discrepancy errors by **15%** and ensuring reliable reporting for reconciliation workflows.
- Designed dimensional data models in **PostgreSQL** to support ad-hoc querying and analytical reporting for operational performance metrics.

Real-Time KPI Dashboard for Enterprise Resource Planning

- Built an interactive dashboard using **Power BI** to visualize key performance indicators (KPIs) for an enterprise ERP system, enabling faster business decision-making.
- Developed complex **DAX** measures and optimized data models for efficient report generation, reducing average report load times by **25%**.
- Integrated data from various ERP modules via SQL queries and structured data files, providing a unified view of business operations.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
