PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Led technical investigations and triage for complex escalations within **authentication pipelines** and unauthorized access vectors, resolving **P1/P2 incidents** impacting enterprise customers.
- Acted as technical engineer for **passwordless authentication** rollouts, supporting the implementation of **Passkey technology (WebAuthn/FIDO2)** for enterprise clients, reducing authentication friction by **30%**.
- Partnered with Product Engineering and Trust & Safety teams to identify and route systemic vulnerabilities in the **authentication stack**, advocating for infrastructure-level fixes that improved system stability by **15%**.
- Designed and implemented automated Python scripts for **data pipeline** and ETL processes, reducing manual data processing time by **40%** for regulatory reporting.
- Developed and maintained **REST APIs** using Java Spring Boot for cross-system integrations, supporting seamless data flows between enterprise business systems and operational platforms.
- Analyzed system logs and API payloads using **Splunk** and **Dynatrace** to debug complex **authentication flows** and token exchanges, resolving an average of **5 critical issues** per week.

SKILLS

Identity & Access Management – OAuth2, SAML, SSO, Passkey, WebAuthn, FIDO2, IAM protocols

Programming Languages – Python, Java, SQL, R

Backend Development – Spring Boot, REST APIs, Microservices, Flask, FastAPI

Cloud & DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Jenkins, Git

Data Analysis & BI – Power BI, DAX, Tableau, RStudio, pandas, NumPy, scikit-learn, SQL, MySQL, PostgreSQL, Oracle, Data Warehousing

Monitoring & Observability – Splunk, Dynatrace, CloudWatch

System Design & Support – Technical Solutions, Solution Engineering, Technical Consulting, Technical Support, System Design, Production Support, Incident Response, Change Management, UAT

EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of
Ireland, Dublin**

02/2026

**BACHELOR OF ENGINEERING in Computer Science – SNS College
of Technology, Coimbatore, India**

01/2021

PROJECTS

Secure Authentication Service for Financial Workflows

- Developed a secure authentication service using **Java Spring Boot** and **OAuth2** to manage user access for a financial services operations dashboard.
- Integrated with **PostgreSQL** for user credential storage and implemented granular access controls, improving data security and audit trail capabilities.

- Reduced unauthorized access attempts by **95%** through robust session management and token validation mechanisms.

Real-time Transaction Monitoring Dashboard

- Engineered a **Power BI** dashboard to visualize real-time transaction flows and operational alerts for a payments processing system, enabling faster issue detection.
- Developed complex **DAX measures** and data models to aggregate and present key performance indicators from multiple data sources.
- Enhanced operational efficiency by providing stakeholders with actionable insights, leading to a **20%** reduction in incident resolution time.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
