

HARIRAMAKRRISHNAN RAMACHANDRAN

+353 899706156 | hariramakrrish@gmail.com | [LinkedIn](#) | Stamp 1G — Eligible to work full-time in Ireland

PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Developed and maintained **Java Spring Boot** microservices for a financial-services operations dashboard, implementing **REST APIs** to support transaction processing workflows and reducing latency by **15%**.
- Automated data validation and reporting processes using **Python** scripts, successfully processing over **1 million records** daily and improving data accuracy by **20%**.
- Managed production support for enterprise applications, responding to P1/P2 incidents and resolving issues within strict **SLA** targets, achieving **99.95%** uptime.
- Designed and implemented **Power BI** dashboards for business stakeholders, integrating data from multiple sources via **Power Query** and building complex **DAX** measures to track key performance indicators, enabling data-driven decision-making.
- Supported and integrated with enterprise **ERP** systems and operational platforms, coordinating **UAT** and change management activities for system configuration updates, ensuring seamless cross-system data flows.
- Analyzed and debugged system issues by reviewing logs and monitoring application performance using **Splunk** and **Dynatrace**, identifying root causes and implementing fixes to maintain service quality.

SKILLS

Languages – Java, Python, SQL, C++, R, Bash

Frameworks/Libraries – Spring Boot, Pandas, NumPy, Scikit-learn

Databases – PostgreSQL, MySQL, Oracle

Cloud/Infrastructure – AWS (EC2, S3, Lambda, CloudWatch), Docker, Linux

CI/CD & Tools – Jenkins, Git, Jira, Confluence, Splunk, Dynatrace

BI & Data Analytics – Power BI, Tableau, DAX, Power Query, Data Warehousing, Statistical Analysis, Machine Learning Fundamentals

System Design – Distributed Systems, Large-Scale Infrastructure, Network Modelling

EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of
Ireland, Dublin**

02/2026

**BACHELOR OF ENGINEERING in Computer Science – SNS College
of Technology, Coimbatore, India**

01/2021

PROJECTS

Distributed Network Modelling Dashboard

- Developed a dashboard application using **Python** and **Flask** to visualize simulated network traffic patterns and model performance metrics.
- Integrated with simulated network data sources, performing data transformation and analysis using **Pandas** and **NumPy** to prepare data for visualization.

- Created interactive charts and reports in **Power BI**, allowing users to explore network behaviour and identify potential bottlenecks, achieving a **30%** improvement in data exploration time.

Financial Transaction Monitoring System

- Built a backend service in **Java Spring Boot** to process and monitor high-volume financial transaction messages, ensuring compliance with operational SLAs.
- Implemented asynchronous processing using message queues and developed **REST APIs** for status updates and alert notifications, handling over **50,000 transactions** per hour.
- Integrated **SQL** queries against a **PostgreSQL** database for persistent storage and retrieval of transaction records, supporting reconciliation workflows and audit trail generation.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
