PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India 09/2021 – 01/2025 (3.5 Years)

- Resolved critical customer escalations by diagnosing and remediating **VMware workloads** on Google Cloud Platform, reducing average resolution time by **18%**.
- Analyzed complex technical troubleshooting evidence, including **packet traces** and **system statistics**, to resolve customer issues across network, memory, and I/O subsystems.
- Served as **subject matter expert** for internal engineering and customer experience teams, overcoming technical deployment obstacles for VMware on GCP environments.
- Collaborated with **Site Reliability Engineering** teams to monitor production systems and respond to outages, minimizing customer impact and ensuring service continuity.
- Developed **Python automation scripts** for data pipeline enhancements and scheduled reporting, improving data processing efficiency by **22%**.
- Managed change control processes for enterprise systems, coordinating User Acceptance Testing and providing post-go-live support for **interconnected business platforms**.

SKILLS

Cloud Platforms – Google Cloud Platform, AWS (EC2, S3, Lambda, CloudWatch).

Virtualization – VMware vSphere (ESXi, vCenter), vSAN, NSX-T, HCX, vRealize Automation, vRealize Operations, Site Recovery Manager.

Programming Languages – Python, Java, Shell, C++, SQL.

Tools & Technologies – Docker, Jenkins, Git, Jira, Confluence, Splunk, Dynatrace, TCPdump, Kubernetes, PostgreSQL, MySQL, Oracle.

Operating Systems – Linux, Windows.

Methodologies – Agile, Scrum, Site Reliability Engineering (SRE).

EDUCATION AND TRAINING

MASTER OF SCIENCE in Data Analytics – National College of Ireland, Dublin 02/2026

BACHELOR OF ENGINEERING in Computer Science – SNS College of Technology, Coimbatore, India 01/2021

PROJECTS

VMware vSphere Operations Dashboard

- Developed a dashboard using **Power BI** to visualize key operational metrics for a large-scale VMware vSphere environment, enhancing monitoring capabilities.
- Implemented **DAX measures** and performed data modeling to aggregate performance data from vCenter and ESXi hosts, providing actionable insights into resource utilization.

- Automated data extraction and transformation using **Power Query**, reducing manual data compilation effort by **40%** for weekly operational reports.

Cloud Infrastructure Automation Framework

- Built a Python-based framework to automate the deployment and configuration of **cloud infrastructure** on AWS, integrating with Jenkins for CI/CD.
- Containerized applications using **Docker** and managed deployments on EC2 instances, ensuring consistent environments across development and production.
- Wrote **REST API integrations** to manage cloud resources programmatically, enabling self-service provisioning for development teams and reducing deployment lead times by **30%**.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
