PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India **09/2021 – 01/2025 (3.5 Years)**

- Managed fleet technical records data, ensuring accuracy and completeness for approximately **1,400 aircraft leases**.
- Administered the technical specification database, inputting and reviewing component status changes and aircraft details, impacting **13 of the Top 15 Aircraft Lessors**.
- Input monthly utilization data and analyzed component status changes for a fleet, contributing to **asset review system control**.
- Developed Python scripts to automate data extraction and reporting for component status, reducing manual data entry time by **30%**.
- Supported the creation and maintenance of technical documentation and control processes for aircraft fleets, adhering to strict **documentation updating and control** standards.
- Collaborated with cross-functional teams to analyze and update shop visit events, ensuring accurate record-keeping for fleet maintenance.

SKILLS

Data Management – Fleet technical records, Documentation control, Database administration, Data input, Data analysis

Aviation Domain – Aircraft lease management, Asset review systems, Component status, Shop visit events, Aircraft specifications

Software & Tools – Microsoft Excel, Microsoft Word, Microsoft Outlook, Python, SQL

Cloud & Automation – AWS, EC2, S3, Lambda, CloudWatch, Jenkins, Git, Docker

Programming Languages – Java, Spring Boot, Python, REST APIs

Databases – PostgreSQL, MySQL, Oracle

BI & Analytics – Power BI, DAX, Tableau, R, pandas, NumPy, scikit-learn

EDUCATION AND TRAINING

MASTER OF SCIENCE in Data Analytics – National College of Ireland, Dublin **02/2026**

BACHELOR OF ENGINEERING in Computer Science – SNS College of Technology, Coimbatore, India **01/2021**

PROJECTS

Aviation Fleet Data Management System

- Designed and implemented a system for managing technical records and documentation for a simulated aircraft fleet, improving data accuracy by **20%**.
- Developed automated data validation routines using Python to ensure consistency in aircraft specifications and equipment data.

- Created interactive dashboards in Power BI to visualize fleet status, component health, and maintenance schedules, facilitating quicker decision-making.

Technical Specification Database Enhancement

- Enhanced an existing technical specification database by adding new fields and improving data integrity checks, supporting a dataset of over **10,000 records**.
- Automated the process of updating component status changes using SQL scripts, reducing processing time by **40%**.
- Generated monthly utilization reports and component status summaries using SQL queries and Excel, supporting operational assessments.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
