

HARIRAMAKRRISHNAN RAMACHANDRAN

+353 899706156 | hariramakrrish@gmail.com | [LinkedIn](#) | Stamp 1G — Eligible to work full-time in Ireland

PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Defined and executed scientific strategy for translational medicine studies, interpreting preclinical data to support program objectives, including **biomarker discovery and validation** for animal and patient studies.
- Managed external partners, including **Contract Research Organizations (CROs)**, to ensure high-quality and timely execution of complex experimental programs, contributing to asset readiness for clinical development phases.
- Contributed to the preparation of regulatory documentation, specifically reviewing and preparing non-clinical sections for key submissions like Investigator's Brochures and briefing meeting packages.
- Designed and implemented investigative translational strategies, integrating **cutting-edge technologies** and scientifically meaningful approaches for both preclinical and clinical development programs.
- Synthesized and communicated preclinical and clinical biomarker study results, providing critical scientific guidance to project teams and supporting key program decision-making processes.
- Assessed and implemented departmental standardizations for new practices and consistent work procedures, including **SOP development**, to enhance operational efficiency and regulatory compliance.

SKILLS

Scientific Strategy & Execution – Translational Medicine, Biomarker Discovery, Assay Development, Preclinical Studies, Clinical Trial Support, Regulatory Documentation (IND, IB)

Project & Partner Management – External Partner Management, CRO Management, Vendor Management, Budget Management, Strategic Planning, Cross-functional Collaboration

Data Analysis & Interpretation – Data Interpretation, Scientific Findings Communication, Preclinical Data Analysis, Clinical Data Analysis, Statistical Analysis, Decision Making

Technology & Innovation – Cutting-edge Technologies, Novel Investigation Areas, Scientific Rigor, Biological Processes, Disease Knowledge

Operations & Compliance – SOP Development, Quality Management, Process Standardization, Regulatory Expectations, Audit Trails, GDPR Awareness

EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of
Ireland, Dublin**

02/2026

**BACHELOR OF ENGINEERING in Computer Science – SNS College
of Technology, Coimbatore, India**

01/2021

PROJECTS

Biomarker Development Pipeline for Novel Therapeutics

- Designed and implemented a data pipeline for processing and analyzing biomarker data from preclinical studies, integrating results from various assay platforms.

- Developed automated reporting tools using **Python** and **pandas** to visualize key biomarker trends and facilitate interpretation for research teams.
- Collaborated with external CROs to ensure data quality and timely delivery of results, aligning experimental outputs with strategic program objectives.

Clinical Trial Data Integration & Analysis Platform

- Architected a system to integrate diverse data streams from ongoing clinical trials, focusing on patient response and safety metrics.
- Applied statistical analysis techniques using **R** and **scikit-learn** to identify correlations between biomarkers and therapeutic efficacy, presenting findings to stakeholders.
- Ensured data integrity and compliance with relevant data handling standards, contributing to the preparation of regulatory submission documents.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
