+353 899706156 | hariramakrrish@gmail.com | [LinkedIn](#) | Stamp 1G — Eligible to work full-time in Ireland

PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Managed **production support** and incident response for enterprise applications, maintaining **99.9% SLA compliance** across P1/P2 issues using **Splunk** and **Dynatrace**.
- Automated key operational tasks and data pipeline processes using **Python**, reducing manual intervention time by **30%** and improving data accuracy.
- Developed and enhanced **Java Spring Boot** microservices, including building new **REST APIs** to support feature integrations and improve system performance.
- Administered and optimized relational databases including **PostgreSQL** and **MySQL**, performing schema changes and data validation to ensure data integrity for reporting.
- Designed and implemented infrastructure for **high-availability** and **disaster recovery** strategies, conducting regular testing to validate recovery objectives.
- Developed comprehensive **technical documentation** for infrastructure designs and operational procedures, facilitating internal and external audits and knowledge transfer.

SKILLS

Operating Systems – Windows Server 2019/2022/2025, Windows 11, Linux (RedHat/OEL)

Directory Services & Networking – Active Directory, Group Policy, TCP/IP, DNS, DHCP

Virtualization & Storage – VMware, NetBackup

Automation & Scripting – Python, Ansible, REST APIs

Cloud & Containerization – AWS (EC2, S3, Lambda, CloudWatch), Docker

Development & Databases – Java Spring Boot, SQL (PostgreSQL, MySQL, Oracle), Python

Monitoring & Observability – Splunk, Dynatrace, CloudWatch

EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of
Ireland, Dublin**

02/2026

**BACHELOR OF ENGINEERING in Computer Science – SNS College
of Technology, Coimbatore, India**

01/2021

PROJECTS

Enterprise Systems Resilience Enhancement

- Architected and deployed a multi-region **disaster recovery solution** for critical enterprise applications, ensuring continuous operation during simulated outages.
- Implemented automated **vulnerability assessment and patch management** workflows using **Ansible**, reducing system exposure by **40%** and streamlining compliance reporting.

- Enhanced **performance monitoring** dashboards in **Splunk** to provide real-time visibility into system health and resource utilization against defined SLAs.

Secure Infrastructure Automation Framework

- Developed a **Python**-based framework for automating the deployment and configuration of secure infrastructure components on **AWS**, adhering to security best practices.
- Integrated **REST APIs** within the automation framework to manage resources and enforce security policies across multiple environments, improving deployment consistency by **25%**.
- Created detailed technical documentation and runbooks for the automation framework, supporting **ITIL** process adherence and enabling junior staff onboarding.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
