PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India **09/2021 – 01/2025 (3.5 Years)**

- Architected and developed scalable UI components using **React** and **TypeScript**, adhering to high standards for performance and accessibility across the global platform.
- Engineered and maintained efficient **Node.js** RESTful APIs using **Express**, supporting frontend requirements and core business logic, processing over 10,000 requests per minute during peak loads.
- Implemented robust API contracts and documentation using **OpenAPI (Swagger)**, ensuring clear definitions for backend services and facilitating frontend integration.
- Drove technical excellence by implementing **Test-Driven Development (TDD)** and maintaining comprehensive testing suites with **Jest** and **React Testing Library**, achieving 90% code coverage for critical modules.
- Collaborated on integrating AI-driven features by connecting frontend layers with **LLM services**, enhancing customer journey workflows and providing intelligent connectivity solutions.
- Optimized full-stack efficiency by maintaining **Node.js** services and RESTful API integrations, reducing average API response times by **15%** through performance tuning.

SKILLS

Frontend Development – React, TypeScript, Tailwind CSS, shadcn/ui, HTML5, CSS3

Backend Development – Node.js, Express, RESTful APIs, OpenAPI (Swagger)

Testing – Test-Driven Development (TDD), Jest, React Testing Library

AI Integration – LLM Services, AI Workflows

Databases – PostgreSQL, MySQL, Oracle

Cloud & DevOps – AWS, Docker, Google Cloud Platform (GCP), CI/CD Pipelines, Jenkins, Git

Programming Languages – Java, Python, SQL, R

EDUCATION AND TRAINING

MASTER OF SCIENCE in Data Analytics – National College of Ireland, Dublin **02/2026**

BACHELOR OF ENGINEERING in Computer Science – SNS College of Technology, Coimbatore, India **01/2021**

PROJECTS

AI-Powered Connectivity Assistant

- Developed a **React** frontend application integrating with an AI service to provide personalized travel connectivity recommendations.
- Built **Node.js** backend APIs using **Express** to manage user profiles and interact with the LLM for generating tailored advice.

- Implemented automated testing using **Jest** and **React Testing Library**, ensuring the reliability of core user flows and AI response handling.

Scalable eSIM Provisioning Platform

- Designed and implemented backend services using **Node.js** and **NestJS** for managing eSIM profiles and user accounts, supporting over 50,000 active users.
- Integrated with external payment gateways and provisioning systems via RESTful APIs, ensuring secure and seamless transaction processing.
- Configured **Docker** containers and deployed services onto **Google Cloud Platform (GCP)**, establishing CI/CD pipelines for automated deployments and scaling.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
