+353 899706156 | hariramakrrish@gmail.com | [LinkedIn](#) | Stamp 1G — Eligible to work full-time in Ireland

PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Managed production stability for a critical financial-services dashboard, monitoring application and infrastructure performance across **AWS** to maintain **99.95% uptime** and meet strict SLAs.
- Automated daily reconciliation workflows using **Python** scripts, reducing manual processing time by **30%** and improving data accuracy for transaction monitoring.
- Developed and maintained **Java Spring Boot** REST APIs for cross-system integrations, supporting a **15% increase** in data exchange efficiency between enterprise platforms.
- Responded to and resolved P1/P2 incidents in a high-availability production environment, coordinating with cross-functional teams to restore service within defined **SLA targets**.
- Implemented enhancements to a payments operations dashboard by refining **SQL queries** in **PostgreSQL**, improving report generation times by **20%** for operational analytics.
- Created and maintained comprehensive electronic documentation, including SOPs and implementation guides, for production systems and operational procedures, supporting **change-control management**.

SKILLS

Cloud Operations – Production Stability, Monitoring, High Availability, Incident Management, SLA Management, Performance Reporting, Cloud Resource Utilization, AWS, EC2, S3, Lambda, CloudWatch

Automation & Scripting – Python, Bash Scripting, Cron Jobs, Scheduled Reporting, ETL, Data Pipelines

Backend Development – Java, Spring Boot, REST APIs, Microservices, Docker

Databases & Data Management – SQL, PostgreSQL, MySQL, Oracle, Data Validation, Schema Changes, Data Warehousing

Observability & Monitoring – Splunk, Dynatrace, CloudWatch

DevOps & CI/CD – Jenkins, Git, Code Reviews, Infrastructure as Code (IaC)

Data Visualization & BI – Power BI, Tableau, DAX, Power Query, Data Modelling

EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of
Ireland, Dublin**

02/2026

**BACHELOR OF ENGINEERING in Computer Science – SNS College
of Technology, Coimbatore, India**

01/2021

PROJECTS

Payments Operations Monitoring Dashboard

- Developed a **Java Spring Boot** application to monitor transaction flows within a financial-services operations dashboard, providing real-time alerts for failed payment messages.
- Integrated **SQL (PostgreSQL)** for data retrieval and validation, ensuring accuracy of displayed metrics for reconciliation workflows and audit trails.

- Collaborated with business analysts to define alerting thresholds and reporting requirements, enhancing visibility into system health and operational performance.

Automated Production Change Deployment System

- Engineered a **Python**-based automation framework to streamline the deployment of routine production changes and configuration updates across multiple environments.
- Integrated with **Jenkins** for automated pipeline execution and used **Git** for version control of deployment scripts, reducing manual deployment errors by **90%**.
- Applied **Infrastructure as Code (IaC)** principles to manage and provision cloud resources, ensuring consistent and scalable deployments on **AWS**.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
