PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India 09/2021 – 01/2025 (3.5 Years)

- Analyzed **contractual terms** and internal data to prepare **customer pricing simulations** and draft **commercial proposals**, ensuring alignment with company policies and client needs.
- Managed daily **license key distribution** and processed over 150 customer requests monthly, maintaining a strict response time SLA of under 24 hours.
- Developed automated Python scripts to streamline the generation of **financial analysis reports** for new business acquisition, reducing manual processing time by **40%**.
- Collaborated with **sales, commercial, and legal** teams to ensure accurate and timely delivery of **license keys** to enterprise clients.
- Supported the integration of newly acquired companies by mapping and analyzing existing **commercial processes**, contributing to a smoother transition for **B2B / SaaS** operations.
- Addressed and responded to complex customer and senior management queries regarding licensing and commercial terms, demonstrating strong **critical thinking** and **analytical skills**.

SKILLS

Commercial Acumen – Customer Pricing Simulations, Financial Analysis, Commercial Proposals, Contractual Terms Analysis, B2B / SaaS Sales

Process Management – License Key Management, Commercial Process Development, Multi-tasking, Adaptability, Goal Orientation

Technical Proficiency – Microsoft Excel, Microsoft PowerPoint, Python, SQL, REST APIs, Jira, Confluence, AWS, Docker

Analytical Skills – Critical Thinking, Attention to Detail, Data Analysis, Problem Solving, Regulatory Awareness

Communication & Collaboration – Interpersonal Skills, Written Communication, Verbal Communication, Stakeholder Management, Customer Relationship Management

EDUCATION AND TRAINING

MASTER OF SCIENCE in Data Analytics – National College of Ireland, Dublin 02/2026

BACHELOR OF ENGINEERING in Computer Science – SNS College of Technology, Coimbatore, India 01/2021

PROJECTS

Automated Financial Analysis and Reporting Platform

- Developed a Python-based platform to automate the generation of **financial analysis** reports for customer pricing simulations, integrating with SQL databases for data retrieval.
- Implemented data validation checks and error handling to ensure the accuracy of generated reports, reducing discrepancies by **15%**.

- Designed a modular architecture allowing for easy expansion to incorporate new data sources and reporting requirements for **commercial proposals**.

License Key Management and Compliance Dashboard

- Built a **Power BI dashboard** to monitor and manage license key distribution, providing real-time insights into key metrics and response times for customer queries.
- Integrated data from multiple sources using **Power Query** for ETL, creating a unified view of license status and customer interactions.
- Developed **DAX measures** to track SLA adherence and identify bottlenecks in the license key delivery process, improving operational efficiency by **20%**.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
