PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Automated lead generation and client acquisition workflows by designing and deploying **AI-driven solutions**, processing data from multiple sources into CRM systems, improving overall lead lifecycle efficiency by **30%**.
- Developed and maintained scalable **data pipelines** to transform raw inputs into CRM-ready insights, implementing data cleaning processes including deduplication and enrichment for over **10,000 leads** monthly.
- Built and managed **web scraping solutions** to extract data from diverse online platforms, effectively handling rate limits and session management to ensure continuous data ingestion.
- Engineered **document processing pipelines**, incorporating **OCR** for scanned documents and structured extraction from digital files, reducing manual data entry time by **40%**.
- Integrated automation systems with **CRM platforms**, ensuring seamless data synchronization and pipeline visibility, which enhanced outreach campaign tracking accuracy by **25%**.
- Supported production environments for a financial-services operations dashboard, performing transaction monitoring and operational alerting for failed payment messages, sustaining **99.9% uptime**.

SKILLS

AI Automation – AI-driven solutions, Intelligent automation, Automation frameworks, AI agent tools, Data extraction, Data structuring, Data enrichment, Data normalization, Prioritization of leads, Lead generation, Client acquisition

Data Engineering – Data pipelines, Data transformation, Structured data processing, ETL, Data warehousing, Data cleaning, Deduplication, Entity resolution, Web scraping, Document processing, OCR

Programming & Scripting – Python, Java, Spring Boot, SQL, REST APIs, Shell scripting

Cloud & DevOps – AWS, EC2, S3, Lambda, CloudWatch, Docker, Jenkins, Git, Linux

BI & Analytics – Power BI, Tableau, DAX, Power Query, Data modelling, Statistical analysis, R, pandas, NumPy, scikit-learn

System Integration – CRM integration, API integration, Cross-system integrations

Operations & Support – Production support, Monitoring, Incident response, SLA management, Change management, UAT support, Regulatory awareness, GDPR

EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of
Ireland, Dublin**

02/2026

**BACHELOR OF ENGINEERING in Computer Science – SNS College
of Technology, Coimbatore, India**

01/2021

PROJECTS

AI-Powered Lead Generation and CRM Integration

- Designed and implemented an end-to-end AI automation workflow to ingest, process, and enrich leads from various online sources.
- Developed Python scripts for web scraping and data extraction, integrating with **OCR** for document parsing and normalization.
- Integrated the processed data seamlessly into a **CRM platform** using REST APIs, enabling automated outreach sequences and improving lead follow-up efficiency.

Financial Transaction Monitoring Dashboard

- Built a dashboard using **Power BI** to monitor transaction flows and operational alerts for a financial services client, processing high-volume financial messages.
- Developed **Python** scripts for data aggregation and ETL from PostgreSQL and Oracle databases to feed the dashboard.
- Implemented data validation and reconciliation checks, reducing the incidence of processing errors by **15%** through enhanced monitoring.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
