PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Developed and customized enterprise-grade CRM solutions on the **Creatio platform**, implementing backend business logic in **C#** and integrating external systems via **REST APIs**, resulting in a **15% improvement** in workflow automation.
- Built responsive frontend features using **TypeScript** and **Angular (Freedom UI)**, enhancing user interfaces for B2B CRM users and contributing to a **20% reduction** in user-reported usability issues.
- Configured and extended **Creatio objects**, business processes, and UI components to meet evolving business needs, ensuring system consistency across modules and supporting **end-to-end feature delivery**.
- Designed and implemented integrations with external systems using both **REST and SOAP APIs**, focusing on robust data mapping and comprehensive error handling to maintain data integrity across interconnected systems.
- Collaborated with Business Analysts and Product Owners within an **Agile/Scrum** framework to translate functional requirements into scalable technical solutions, participating actively in sprint planning and backlog refinement.
- Debugged and resolved complex issues across frontend, backend, and integration layers of the CRM platform, ensuring system stability and performance for critical B2B workflows with **99.9% uptime**.

SKILLS

Backend Development – C#, SOLID principles, Object-Oriented Programming, Creatio Platform, Business Logic, Custom Packages.

Frontend Development – TypeScript, Angular (v18), Freedom UI Customization, UI Development, Responsive Design.

Integration & APIs – REST APIs, SOAP APIs, API Integration Design, Data Mapping, Error Handling.

Database & Architecture – PostgreSQL, MS SQL, Relational Databases, Client-Server Interaction, Layered Architecture.

Methodologies & Tools – Agile, Scrum, CI/CD Pipelines, Git, Jira, Confluence, Technical Documentation.

Domain Specific – B2B CRM, Enterprise CRM Solutions, Creatio Ecosystem, Business Processes, UI Components.

EDUCATION AND TRAINING

MASTER OF SCIENCE in Data Analytics – National College of Ireland, Dublin

02/2026

BACHELOR OF ENGINEERING in Computer Science – SNS College of Technology, Coimbatore, India

01/2021

PROJECTS

Enterprise CRM Customization Platform

- Developed custom backend business logic using **C#** and **Creatio platform** capabilities to automate core B2B sales workflows, improving process efficiency by **18%**.
- Implemented frontend user interfaces with **TypeScript** and **Angular (Freedom UI)**, focusing on intuitive navigation and data visualization for sales representatives.
- Integrated the CRM with external marketing automation tools via **REST APIs**, ensuring seamless data flow and reducing manual data entry time by **25%**.

Financial Operations Dashboard Enhancement

- Enhanced a payments operations dashboard by refining **SQL queries** on PostgreSQL, leading to a **30% faster** retrieval of transaction data for monitoring.
- Developed automated Python scripts to process and validate inbound financial transaction messages, reducing manual reconciliation efforts and improving accuracy.
- Implemented real-time alerting mechanisms using **Splunk** for critical payment processing failures, decreasing incident response time by **22%**.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
