PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Developed and enhanced mobile applications using **React Native**, integrating **RESTful APIs** and **WebSocket** services to deliver real-time financial data visualization, improving user engagement by **15%**.
- Optimized application responsiveness and ensured smooth real-time user experiences at scale for a digital trading platform, reducing UI lag by **20%** through performance tuning.
- Implemented new features for a high-performance mobile application using **Agile methodologies** and **Redux**, contributing to a **10%** increase in feature adoption within the first quarter.
- Collaborated with cross-functional teams, including designers and product managers, to define and deliver user-centric mobile solutions, influencing product roadmap decisions.
- Contributed to code quality and continuous improvement of mobile architecture by participating in code reviews and implementing **unit and integration tests**, reducing production bugs by **18%**.
- Gained hands-on experience with **Expo** and modern mobile development workflows, enhancing build and deployment processes for faster iteration cycles.

SKILLS

Mobile Development – React Native, JavaScript (ES6+), Redux, Expo, WebSocket, Mobile Performance Optimization, Scalable App Architecture.

Backend Integration – RESTful APIs, API Integration.

Programming Languages – JavaScript, Python, Java, SQL.

Cloud & DevOps – AWS, Docker, Jenkins, Git.

Data Visualization – Power BI, Tableau, DAX.

Methodologies – Agile, Scrum, CI/CD.

Databases – PostgreSQL, MySQL, Oracle.

EDUCATION AND TRAINING

MASTER OF SCIENCE in Data Analytics – National College of Ireland, Dublin

02/2026

BACHELOR OF ENGINEERING in Computer Science – SNS College of Technology, Coimbatore, India

01/2021

PROJECTS

Real-Time Trading Dashboard Mobile App

- Developed a mobile dashboard application using **React Native** and **Redux** to display real-time market data streams.
- Integrated **WebSocket** APIs to ensure low-latency updates for thousands of concurrent data points, achieving sub-second refresh rates.

- Implemented interactive charting components and data visualization features, enabling users to analyze complex financial datasets efficiently.

Cross-Platform Finance Operations Monitor

- Built a cross-platform mobile application using **React Native** for monitoring financial transaction flows and operational alerts.
- Designed and consumed **RESTful APIs** to fetch transaction status and reconciliation data from backend services.
- Focused on creating a user-friendly interface for reviewing operational KPIs and identifying anomalies in transaction processing, directly supporting a financial services client's operational efficiency.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
