PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Provided hands-on technical support to enterprise customers integrating and using **APIs**, ensuring smooth implementation and adoption of best practices for a usage-based billing platform.
- Investigated, debugged, and resolved customer-reported issues by analyzing system behavior using internal **observability tools** and diagnostic logs, achieving a 15% reduction in average resolution time.
- Managed technical escalations through **Zendesk**, ensuring clear communication and detailed context was shared with engineering teams to expedite complex issue resolution.
- Developed internal automation scripts using **Python** and the platform's API to streamline support workflows, improving operational efficiency by 20% and reducing manual effort.
- Contributed to the creation and maintenance of a comprehensive **knowledge base** and technical documentation for customers and internal teams, reducing common query volume by 10%.
- Collaborated cross-functionally with engineering and customer success teams to analyze recurring issues, providing structured feedback that directly influenced product roadmap decisions and improved usability.

SKILLS

Cloud & SaaS – API-driven systems, High-scale SaaS, Enterprise SaaS, AWS, Docker

Support & Operations – Technical Support Engineering, Customer-facing Engineering, B2B SaaS Support, Zendesk, Front, Pylon, Ticketing Systems, Incident Response, Change Management, UAT

Programming & Scripting – Python, Java, Spring Boot, REST APIs, TypeScript, Ruby, Shell Scripting

Databases & Data Analysis – SQL, PostgreSQL, MySQL, Oracle, Data Warehousing, ETL, Data Modelling, Power BI, DAX, Power Query, Tableau, R, pandas, NumPy, scikit-learn

System Administration & Tools – Linux, Jenkins, Git, Jira, Confluence, Splunk, Dynatrace, CloudWatch, Observability Tools

EDUCATION AND TRAINING

MASTER OF SCIENCE in Data Analytics – National College of Ireland, Dublin

02/2026

BACHELOR OF ENGINEERING in Computer Science – SNS College of Technology, Coimbatore, India

01/2021

PROJECTS

API Integration Support Dashboard

- Developed a dashboard using **Power BI** to monitor API integration health for enterprise customers, visualizing key metrics like request latency and error rates.
- Automated data extraction and transformation from various system logs into a data warehouse using **Python** scripts and **SQL**, reducing manual data preparation time by 40%.

- Implemented custom **DAX measures** to track and report on integration success rates and identify common failure patterns, directly informing support team prioritization.

Customer Issue Triage Automation

- Engineered an automated system using **Python** and **Flask** to triage incoming customer support tickets, classifying issues and routing them to the appropriate engineering teams.
- Integrated the system with **Jira** and internal APIs to fetch ticket details and update statuses, processing over 500 tickets daily with 98% accuracy.
- Created detailed technical documentation and user guides for the automation tool, enhancing internal team adoption and reducing onboarding time for new support engineers.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
