PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Designed and implemented secure software solutions by integrating **IAM, OIDC, and SAML** protocols to manage user authentication and authorization, reducing unauthorized access incidents by **30%**.
- Developed secure, cloud-native applications on **AWS**, writing production code and performing code reviews to ensure adherence to security best practices and minimize vulnerabilities.
- Executed threat modeling for multiple applications interacting with internal networks, identifying potential attack vectors and recommending security protocol enhancements to mitigate risks.
- Automated security vulnerability assessments using **Python** scripts, analyzing results from discovery and penetration tests to identify and prioritize remediation efforts for over **100** assets.
- Collaborated with stakeholders to understand and incorporate evolving security needs, modifying business processes to address identified vulnerabilities and ensure regulatory compliance.
- Managed and supported enterprise-level security solutions, ensuring tamper-proof and audit-defensible methods across various technical domains and business functions.

SKILLS

Cloud Platforms – AWS, EC2, S3, Lambda, CloudWatch, Redshift, Lake Formation

Security Concepts – IAM, Authentication, OIDC, SAML, Cybersecurity, Threat Modeling, Vulnerability Assessment, Penetration Testing

Programming Languages – Python, Java, SQL, R

Frameworks & Libraries – Spring Boot, pandas, NumPy, scikit-learn

Data & Analytics – Data Analytics, Data Warehousing, ETL, DAX, Power Query, Snowflake, Databricks

DevOps & Tools – Docker, Jenkins, Git, Jira, Confluence, Splunk, Dynatrace

Infrastructure as Code – Terraform, CloudFormation

EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of
Ireland, Dublin**

02/2026

**BACHELOR OF ENGINEERING in Computer Science – SNS College
of Technology, Coimbatore, India**

01/2021

PROJECTS

Secure Cloud Application Development Pipeline

- Architected and built a CI/CD pipeline using **Jenkins** and **AWS CodePipeline** for secure deployment of cloud-native applications.
- Integrated **Terraform** for Infrastructure as Code, ensuring consistent and secure provisioning of AWS resources like EC2 instances and S3 buckets.

- Implemented automated security scanning within the pipeline, identifying and flagging vulnerabilities in code and configurations before deployment, achieving a **95%** reduction in post-deployment security issues.

Enterprise Security Monitoring and Alerting Dashboard

- Developed a dashboard using **Power BI** to visualize security events and system health across enterprise applications, integrating data from **Splunk** logs.
- Created custom **DAX** measures to track key security metrics, including authentication failures and unauthorized access attempts, providing real-time operational insights.
- Supported the operational monitoring of financial-services transaction flows, ensuring timely alerting for anomalies and adherence to strict SLAs within a GDPR-aware production environment.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
