PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Managed and monitored the end-to-end ETF lifecycle, including order placement and settlement of burst transactions, ensuring **99.95%** processing accuracy on incoming cash receipts and collateral.
- Analyzed and troubleshoot Portfolio Composition Files (PCFs) to identify discrepancies and resolve issues within the ETF trade settlement process, reducing resolution time by **20%**.
- Researched and resolved client inquiries regarding trade and settlement activities, maintaining a **95%** client satisfaction rating through timely and effective communication.
- Collaborated with internal partners including Client Services, Custody, and the Global ETF Team to streamline operations and enhance client support for ETF launches.
- Drove process improvements within the operations team, implementing automated reporting for key efficiency metrics that improved data availability by **30%**.
- Supported new business initiatives and the onboarding of Authorized Participants by coordinating data flow and system integration requirements.

SKILLS

Operations & Analysis – ETF Lifecycle Management, Trade Settlement, Portfolio Composition File (PCF) Analysis, Client Inquiry Resolution, Process Improvement, Reporting Metrics, New Business Initiatives, Authorized Participant Onboarding

Financial Services Technologies – Global Custody, Fund Accounting, Transfer Agency, Basket Settlement Services, Risk Mitigation, Return Enhancement, Efficiency Improvement

Core Technologies – SQL, Python, Java, Spring Boot, REST APIs, AWS, Docker, Linux, Git, Jenkins

Data Analysis & BI – Power BI, Tableau, DAX, Power Query, Data Modelling, Data Warehousing, Business Intelligence

Methodologies & Tools – Agile/Scrum, Jira, Confluence, Splunk, Dynatrace, CloudWatch

EDUCATION AND TRAINING

MASTER OF SCIENCE in Data Analytics – National College of Ireland, Dublin

02/2026

BACHELOR OF ENGINEERING in Computer Science – SNS College of Technology, Coimbatore, India

01/2021

PROJECTS

Payments Reconciliation & Transaction Monitoring Dashboard

- Developed a **Java Spring Boot** application to process and monitor financial transaction flows, providing real-time alerts for failed or delayed payment messages.
- Implemented automated reconciliation workflows using **Python scripts** and **SQL** queries against **PostgreSQL** databases, reducing manual reconciliation effort by **40%**.

- Enhanced operational visibility through a **Power BI dashboard**, visualizing key performance indicators for transaction processing and system uptime across multiple financial services workflows.

Enterprise Systems Integration & Reporting Platform

- Integrated disparate enterprise systems, including ERP modules, via **REST APIs** and direct database connections using **SQL** across **Oracle** and **MySQL**, enabling seamless data exchange.
- Developed automated data pipelines with **Python** for ETL processes, supporting scheduled reporting and data validation for business intelligence purposes.
- Managed system configuration updates and post-go-live support through a structured change-control process, ensuring minimal disruption to business operations.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
