

HARIRAMAKRRISHNAN RAMACHANDRAN

+353 899706156 | hariramakrrish@gmail.com | [LinkedIn](#) | Stamp 1G — Eligible to work full-time in Ireland

PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Developed and maintained **Java Spring Boot** REST APIs for core financial services applications, supporting critical transaction processing workflows and achieving **99.95%** uptime under high load.
- Automated data validation and reporting processes using **Python** scripts, reducing manual effort by **40%** and improving data accuracy for operational dashboards.
- Contributed to the design and implementation of secure software solutions, producing architecture artifacts and writing production-ready **Java** code with a focus on application resiliency and security best practices.
- Gathered and analyzed diverse datasets to develop visualizations and operational reports, enhancing the understanding of system performance and identifying areas for continuous software application improvement.
- Supported enterprise business systems and ERP integrations through systematic change-control management and coordination of User Acceptance Testing (UAT), ensuring smooth post-go-live operations across interconnected platforms.
- Managed production incidents for enterprise applications using **Splunk** and **Dynatrace**, resolving P1/P2 issues within strict Service Level Agreements (SLAs) and maintaining comprehensive audit trails.

SKILLS

Backend Development – Java, Spring Boot, REST APIs, Python, Flask, FastAPI

Databases – SQL, PostgreSQL, MySQL, Oracle, Database Querying

Cloud & DevOps – AWS, EC2, S3, Lambda, CloudWatch, Docker, Jenkins, Git, CI/CD

Data Analytics & BI – Power BI, Tableau, DAX, Power Query, R, RStudio, pandas, NumPy, scikit-learn, Data Warehousing, Data Modelling

Methodologies & Tools – Agile, Scrum, Jira, Confluence, Linux, Shell Scripting, Change Management, Incident Response

Financial Services Domain – Payments Operations Dashboard, Transaction Monitoring, Reconciliation Workflows, Regulatory Awareness, GDPR

EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of
Ireland, Dublin**

02/2026

**BACHELOR OF ENGINEERING in Computer Science – SNS College
of Technology, Coimbatore, India**

01/2021

PROJECTS

Payments Transaction Monitoring Dashboard

- Developed a **Java Spring Boot**-based microservice to ingest and process real-time transaction messages from various financial streams.

- Integrated with **PostgreSQL** to store transaction data and implemented **Python** scripts for automated reconciliation checks, reducing processing errors by **15%**.
- Designed and deployed interactive dashboards using **Power BI** to visualize transaction flows, identify bottlenecks, and provide operational alerts, enhancing client-facing support capabilities.

Enterprise Systems Integration Hub

- Engineered a central integration layer using **Java Spring Boot** and **REST APIs** to connect disparate enterprise resource planning (ERP) and operational systems.
- Implemented robust error handling and logging mechanisms with **AWS CloudWatch**, improving system visibility and reducing critical integration failures by **20%**.
- Managed application configurations and deployment pipelines via **Jenkins**, ensuring seamless updates and adherence to change-control protocols for over 5 interconnected business systems.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
