+353 899706156 | hariramakrrish@gmail.com | [LinkedIn](#) | Stamp 1G — Eligible to work full-time in Ireland

PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Managed **data integration** and complex **data analysis** across disparate systems, ensuring data consistency for downstream applications.
- Developed extensible **data acquisition and integration solutions** using **Python** and **AWS Lambda** to meet evolving client requirements and improve data pipeline reliability by **15%**.
- Implemented processes to **extract, transform, and distribute data** from diverse sources, including **Parquet** and **ORC**, across multiple data stores like **S3** and **RDS**.
- Provided **problem-solving expertise** and conducted complex **data analysis** to design and deliver robust business intelligence integration solutions, reducing report generation time by **30%**.
- Collaborated with **Product Management**, **Integration Engineering**, and **Quality Engineering** teams to define requirements and deliver integrated software components.
- Contributed to building scalable, high-performance **distributed services** and systems, ensuring seamless interoperability and data flow across geographically distributed teams.

SKILLS

Cloud Platforms – AWS (EC2, S3, Lambda, EMR, CloudWatch), Docker

Data Engineering – Big Data Technologies, Spark, PySpark, Scala, AWS Glue, Apache Airflow, Data Warehousing, Data Modeling, Data Lake, Parquet, ORC, Avro, Delta Lake, Iceberg, ETL, Data Integration

Databases – PostgreSQL, MySQL, Oracle, RDS, DynamoDB, NoSQL

CI/CD & DevOps – Jenkins, Git, Artifactory, Yaml, Terraform, CloudFormation, Infrastructure as Code (IaC)

Programming Languages – Java, Python, Spring Boot, Scala, R

Tools & Methodologies – Jira, Confluence, Agile/Scrum, AI-assisted development (GitHub Copilot), REST APIs, Problem Solving, Troubleshooting, Analytical Skills, Communication Skills

EDUCATION AND TRAINING

MASTER OF SCIENCE in Data Analytics – National College of Ireland, Dublin

02/2026

BACHELOR OF ENGINEERING in Computer Science – SNS College of Technology, Coimbatore, India

01/2021

PROJECTS

Scalable Data Processing Pipeline for Financial Operations

- Engineered a **data pipeline** using **PySpark** on **AWS EMR** to process high-volume financial transaction data, transforming raw logs into structured formats like **Parquet**.
- Integrated disparate data sources, including relational databases (**PostgreSQL**) and file storage (**S3**), to create a unified data lake for reporting and analysis.

- Developed automated data validation checks and implemented monitoring using **AWS CloudWatch**, ensuring **99.9%** data accuracy and pipeline uptime.

Real-Time Analytics Dashboard for Enterprise Systems

- Developed a **Business Intelligence dashboard** using **Power BI**, integrating data from multiple enterprise systems via **REST APIs** and direct database connections.
- Designed complex **DAX measures** and data models to provide key performance indicators (KPIs) on system performance and operational efficiency, enabling stakeholders to make data-informed decisions.
- Automated data refresh processes using **Power Query**, reducing manual effort by **40%** and ensuring up-to-date reporting for critical business operations.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
