

HARIRAMAKRRISHNAN RAMACHANDRAN

+353 899706156 | hariramakrrish@gmail.com | [LinkedIn](#) | Stamp 1G — Eligible to work full-time in Ireland

PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Designed and implemented **Java Spring Boot** microservices for a new HR technology platform, focusing on secure REST API development and integration with existing enterprise systems, handling over 10,000 daily transactions.
- Developed and maintained **Python** scripts for automating data ingestion pipelines and generating scheduled operational reports, reducing manual reporting effort by **30%**.
- Managed production incidents and SLA adherence for enterprise applications using **Splunk** and **Dynatrace**, resolving P1/P2 issues within defined timeframes and improving system uptime.
- Built and deployed **full-stack capabilities** using **React** for the UI and **Java Spring Boot** for backend services, delivering responsive user experiences for internal HR tools.
- Executed complex **SQL queries** against large datasets in **PostgreSQL** for data validation and ad-hoc analysis, supporting development teams in debugging and system integrity checks.
- Contributed to the design and implementation of cloud-native patterns within **AWS** environments, including deploying applications on **EC2** and managing data with **S3**.

SKILLS

Languages – Java, Python, JavaScript, TypeScript, SQL, R.

Frameworks/Libraries – Spring Boot, React, pandas, NumPy, scikit-learn.

Cloud Platforms – AWS (EC2, S3, Lambda, CloudWatch).

Databases – PostgreSQL, MySQL, Oracle.

DevOps/CI/CD – Jenkins, Git, Docker, Kubernetes.

Tools & Technologies – REST APIs, Jira, Confluence, Splunk, Dynatrace, Power BI, Tableau.

Methodologies – Agile, Scrum, SDLC, Microservices Architecture.

EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of
Ireland, Dublin**

02/2026

**BACHELOR OF ENGINEERING in Computer Science – SNS College
of Technology, Coimbatore, India**

01/2021

PROJECTS

HR Employee Data Management Platform

- Developed backend microservices using **Java Spring Boot** to manage employee data, ensuring secure **REST API** endpoints for front-end consumption.
- Implemented robust data validation and error handling for user inputs and data integrations, contributing to a **99.5%** data accuracy rate.

- Integrated with **AWS S3** for secure storage of employee-related documents and utilized **Jenkins** for automated build and deployment pipelines.

Operational Analytics Dashboard for Enterprise Systems

- Designed and developed interactive dashboards using **Power BI** to visualize key performance indicators for enterprise systems, including operational stability and system health metrics.
- Extracted, transformed, and loaded data from multiple sources using **SQL** and **Power Query**, enabling comprehensive analysis and reporting for business stakeholders.
- Created complex **DAX** measures to support in-depth analysis of system performance trends, identifying areas for optimization and reducing system latency by **15%**.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
