

HARIRAMAKRRISHNAN RAMACHANDRAN

+353 899706156 | hariramakrrish@gmail.com | [LinkedIn](#) | Stamp 1G — Eligible to work full-time in Ireland

PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India **09/2021 – 01/2025 (3.5 Years)**

- Developed and debugged secure, production-ready code for enterprise applications, applying industry best practices to minimize security vulnerabilities and ensure audit defensibility.
- Executed creative security solutions by designing and implementing tamper-proof systems, addressing complex technical challenges beyond conventional approaches.
- Conducted threat modeling and vulnerability assessments on multiple organizational assets, identifying and mitigating potential risks to internal and external applications.
- Collaborated with stakeholders to understand security needs, recommending business modifications during periods of vulnerability and ensuring alignment with security protocols.
- Automated data validation and reporting processes using **Python scripts**, reducing manual effort by **30%** and improving data pipeline efficiency.
- Managed CI/CD pipelines using **Jenkins** and **Git** for enterprise Java Spring Boot applications, facilitating code reviews and streamlining deployment cycles.

SKILLS

Cloud Platforms – AWS (EC2, S3, Lambda, CloudWatch), Public Cloud concepts

Security Concepts – IAM, Authentication, OIDC, SAML, Vulnerability Assessment, Threat Modeling, Penetration Testing

Languages & Frameworks – Python, Java, Spring Boot, REST APIs, Flask, FastAPI

Databases & Data Platforms – PostgreSQL, MySQL, Oracle, Redshift, Snowflake, Databricks

DevOps & IaC – Docker, Jenkins, Git, Terraform, CloudFormation

Monitoring & Observability – Splunk, Dynatrace, CloudWatch

Data Analytics & BI – Power BI, Tableau, DAX, Power Query, R, pandas, NumPy, scikit-learn

EDUCATION AND TRAINING

MASTER OF SCIENCE in Data Analytics – National College of Ireland, Dublin **02/2026**

BACHELOR OF ENGINEERING in Computer Science – SNS College of Technology, Coimbatore, India **01/2021**

PROJECTS

Secure Cloud-Native Application Development

- Designed and implemented secure cloud-native applications on **AWS**, focusing on IAM policies and secure coding practices to protect sensitive data.
- Integrated **Terraform** for Infrastructure as Code, enabling automated provisioning of secure, scalable, and auditable cloud environments.

- Developed REST APIs using **Python** and **Spring Boot**, ensuring secure authentication and authorization for inter-service communication.

Enterprise Data Security Posture Management

- Built automated workflows using **Python** and **SQL** to monitor and analyze data access patterns across enterprise systems, identifying potential security misconfigurations.
- Created interactive dashboards in **Power BI** to visualize data security posture, highlighting vulnerabilities and compliance gaps for stakeholders.
- Applied foundational cybersecurity concepts such as access control and authentication to secure data pipelines and analytical workloads.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
