PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India 09/2021 – 01/2025 (3.5 Years)

- Developed and maintained **Java Spring Boot microservices** for a trade processing platform, ensuring synchronous operation with core financial systems and reducing latency by **15%**.
- Implemented **event-driven architecture** patterns using Kafka and JMS to facilitate asynchronous communication between distributed services, enhancing system resilience and throughput by **20%**.
- Automated the deployment of **microservices** to AWS cloud-native environments, streamlining the CI/CD pipeline and reducing deployment times by **30%**.
- Analyzed large, diverse datasets to identify performance bottlenecks and recurring issues within production systems, leading to a **25%** reduction in critical incidents.
- Collaborated in an agile team to design and implement **secure, high-quality production code**, contributing to architecture and design artifacts for complex financial applications.
- Supported the migration of legacy applications to the **AWS ecosystem**, ensuring application stability and adherence to security protocols during the transition.

SKILLS

Languages – Java 11, Python, SQL

Frameworks & Libraries – Spring Boot, Kafka, Java Messaging System (JMS)

Databases – Oracle, PostgreSQL, MongoDB

Cloud & DevOps – AWS, Docker, Kubernetes, CI/CD, Jenkins, Git

Methodologies – Agile, Microservices Architecture, Event-Driven Architecture

Tools & Technologies – Splunk, Dynatrace, Jira, Confluence

EDUCATION AND TRAINING

MASTER OF SCIENCE in Data Analytics – National College of Ireland, Dublin 02/2026

BACHELOR OF ENGINEERING in Computer Science – SNS College of Technology, Coimbatore, India 01/2021

PROJECTS

Investment Banking Trade Processing Service

- Designed and developed a **Java Spring Boot microservice** to handle trade settlement messages, integrating with upstream and downstream financial systems.
- Implemented robust error handling and retry mechanisms for **Kafka message processing**, ensuring data integrity and minimizing transaction loss.
- Contributed to code reviews and testing efforts, ensuring adherence to **security and performance standards** for critical trade operations.

Cloud-Native Application Migration Framework

- Developed a framework for migrating enterprise applications to **AWS cloud-native solutions**, incorporating containerization with Docker.
- Automated infrastructure provisioning and deployment using **CI/CD pipelines** managed with Jenkins and Git, enabling faster release cycles.
- Created operational dashboards using **Splunk** to monitor application health and performance post-migration, facilitating proactive issue resolution.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
