PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Designed and developed **Java Spring Boot** microservices for internal enterprise applications, enhancing functionality and creating new **REST APIs** to support senior leadership reporting, reducing manual data compilation time by **30%**.
- Automated recurring operational issues within a large corporate environment using **Python scripting**, improving software stability and reducing critical incident response time by **25%**.
- Architected and implemented complex application solutions with **Java** and **Spring frameworks**, adhering to strict design standards and ensuring code quality for system stability and synchronization.
- Analyzed existing enterprise application codebases to identify areas for enhancement and integrated new services, directly contributing to improved user experience for internal stakeholders.
- Managed the software development life cycle for new features on a financial-services operations dashboard, including design, development, testing, and deployment within a regulated production environment.
- Collaborated across cross-functional teams in an agile environment, participating in **CI/CD** processes and ensuring application resiliency and security for critical internal tools.

SKILLS

Backend Development – Java, Spring Boot, Spring Framework, REST APIs, Microservices, Python, Flask, FastAPI

Cloud & DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Jenkins, CI/CD, Git, Linux

Databases – SQL, PostgreSQL, MySQL, Oracle

Data Analysis & BI – Power BI, DAX, Power Query, Tableau, R, RStudio, pandas, NumPy, scikit-learn

Methodologies & Tools – Agile, Scrum, Jira, Confluence, Software Development Life Cycle (SDLC)

EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of
Ireland, Dublin**

02/2026

**BACHELOR OF ENGINEERING in Computer Science – SNS College
of Technology, Coimbatore, India**

01/2021

PROJECTS

Internal Operations Dashboard Enhancement

- Developed new modules for an internal operations dashboard using **Java Spring Boot** and **SQL**, focusing on transaction monitoring and reporting for financial services workflows.
- Automated data ingestion and validation processes with **Python**, improving data accuracy for operational alerts by **15%** and reducing manual checks.
- Implemented enhanced logging and monitoring using **AWS CloudWatch** to track application performance and identify potential issues proactively.

AI-Assisted Meeting Preparation Platform

- Designed and built backend services using **Java Spring Boot** to integrate with Microsoft 365 applications for a meeting preparation platform.
- Developed APIs to process and transform data, enabling the visualization of key metrics and insights for senior leadership decision-making.
- Explored and integrated basic **AI features** for content summarization, enhancing the efficiency of report generation and analysis.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
