PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India 09/2021 – 01/2025 (3.5 Years)

- Managed stock records for high-end luxury brands, ensuring **99.8% accuracy** through meticulous data entry and reconciliation of sales transactions using an **Electronic Stock Management System**.
- Monitored daily sales activities to identify and investigate **unusual transactions and payment methods**, collaborating with shop staff to resolve discrepancies and ensure proper logging.
- Prepared comprehensive **weekly and monthly reports** on stock levels, sales trends, and inventory adjustments for Directors, enhancing decision-making capabilities.
- Automated the generation of operational reports using **Python scripting**, reducing manual reporting time by **40%** and improving data timeliness for business stakeholders.
- Supported the administration and execution of **stock counts**, including weekly, monthly, and annual inventories, maintaining high standards of detail and accuracy.
- Collaborated with cross-functional teams to resolve **stock items sold incorrectly** and ensure all adjustments, stock moves, and transfers were logged with **100% compliance** to internal procedures.

SKILLS

Inventory Management – Stock Records, Stock Counts, Data Entry, Reconciliation, Transaction Monitoring
Reporting & Analytics – Data Analysis, Sales Tracking, KPI Reporting, Business Intelligence, Power BI, DAX, Tableau
Automation & Scripting – Python, SQL, Shell Scripting
Systems & Tools – Electronic Stock Management System, ERP Systems, POS Systems, Jira, Confluence, Microsoft Office Suite
Core Competencies – Attention to Detail, Problem Solving, Numerical Skills, Organisational Skills, Teamwork, Initiative, Communication

EDUCATION AND TRAINING

MASTER OF SCIENCE in Data Analytics – National College of Ireland, Dublin 02/2026

BACHELOR OF ENGINEERING in Computer Science – SNS College of Technology, Coimbatore, India 01/2021

PROJECTS

Retail Sales & Inventory Analytics Dashboard

- Developed an interactive **Power BI dashboard** to visualize daily sales performance, stock movement trends, and identify potential inventory discrepancies for luxury retail operations.
- Integrated data from Point-of-Sale (POS) systems and inventory management platforms using **Power Query** for data transformation and prepared structured data models for analysis.

- Implemented **DAX measures** to calculate key performance indicators (KPIs) such as sales velocity, stock turn, and shrinkage rates, providing actionable insights to management.

Automated Transaction Reconciliation System

- Designed and implemented a **Python-based system** to automate the reconciliation of sales transactions against payment gateway records, reducing manual effort by **60%**.
- Developed **SQL queries** to extract and validate transaction data from PostgreSQL databases, flagging inconsistencies and generating exception reports for review.
- Ensured all automated reconciliation processes adhered to strict **audit trail requirements** and data integrity standards for financial operations.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
