PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India 09/2021 – 01/2025 (3.5 Years)

- Managed and resolved incoming support tickets for enterprise applications, achieving a **96%+ customer satisfaction rating** through accurate and empathetic responses.
- Debugged complex production issues across distributed systems, identifying root causes within logs and configurations to restore service availability and meet **strict SLA commitments**.
- Developed and maintained **Python scripts** for automating ETL processes and scheduled reporting, improving data pipeline efficiency by **18%**.
- Contributed to feature development and bug fixes for **Java Spring Boot** REST APIs, enhancing system functionality for internal enterprise users.
- Configured and maintained CI/CD pipelines using **Jenkins and Git**, reducing deployment cycle times by **15%** and improving code quality through rigorous reviews.
- Supported and integrated with enterprise business systems, including ERP modules, managing change control processes and coordinating User Acceptance Testing (UAT) for system updates.

SKILLS

Core Technologies – PHP, Laravel, Nginx, MySQL, Redis, Ubuntu, Linux, Shell Scripting

Programming Languages – Python, Java, SQL

Frameworks & Libraries – Spring Boot, Flask, FastAPI

Cloud & Infrastructure – AWS (EC2, S3, Lambda, CloudWatch), Docker

DevOps & CI/CD – Jenkins, Git, Jira, Confluence

Observability & Monitoring – Splunk, Dynatrace

Data & Analytics – Power BI, Tableau, DAX, Power Query, pandas, NumPy, scikit-learn

EDUCATION AND TRAINING

MASTER OF SCIENCE in Data Analytics – National College of Ireland, Dublin 02/2026

BACHELOR OF ENGINEERING in Computer Science – SNS College of Technology, Coimbatore, India 01/2021

PROJECTS

Payments Operations Dashboard Support

- Provided production support for a financial-services operations dashboard, monitoring transaction flows and addressing alerts for failed payment messages.
- Automated routine data validation tasks using **Python scripts**, reducing manual intervention by **30%** and improving data accuracy.

- Collaborated with business analysts to triage issues and document requirements for enhancements to reconciliation workflows.

Application Performance Monitoring & Alerting System

- Engineered a real-time alerting system using **Splunk and AWS CloudWatch** to monitor application health and proactively identify production incidents.
- Reduced critical incident response time by **22%** through automated log analysis and event correlation, ensuring adherence to service level agreements.
- Developed dashboards in **Power BI** to visualize key performance indicators and system stability metrics for stakeholders.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
