

HARIRAMAKRRISHNAN RAMACHANDRAN

+353 899706156 | hariramakrrish@gmail.com | [LinkedIn](#) | Stamp 1G — Eligible to work full-time in Ireland

PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India **09/2021 – 01/2025 (3.5 Years)**

- Developed and maintained attribute logic for a data analytics platform, **Python** and **Java**, enhancing data source integration for **Risk Solutions**.
- Implemented attribute testing procedures using **Python** and **SQL**, ensuring data quality and consistency for moderately complex attribute sets, reducing data discrepancies by **15%**.
- Resolved production bugs and implemented enhancements for attribute development applications, improving system stability and user experience for internal stakeholders.
- Authored and updated comprehensive **user guides** and technical documentation for attribute development processes, supporting onboarding and knowledge transfer for new team members.
- Collaborated with Modeling teams to define and integrate new attribute logic, directly supporting the creation of new data-driven solutions for insurance risk assessment.
- Supported the implementation of new attributes into the production environment, working alongside other engineers to ensure accurate deployment and integration with existing systems.

SKILLS

Languages – Python, Java, SQL, ECL, C++.

Data Science & Analytics – Data Analysis, Attribute Development, Data Manipulation, Statistical Analysis, Machine Learning Fundamentals.

Databases – Relational Databases, PostgreSQL, MySQL, Oracle.

Development Tools – KEL, Git, Jenkins, Jira, Confluence.

Cloud & Operations – AWS, Docker, Linux, Production Support, Monitoring.

BI & Visualization – Power BI, Tableau, DAX, Power Query.

EDUCATION AND TRAINING

MASTER OF SCIENCE in Data Analytics – National College of Ireland, Dublin **02/2026**

BACHELOR OF ENGINEERING in Computer Science – SNS College of Technology, Coimbatore, India **01/2021**

PROJECTS

Attribute Logic Development for Risk Analytics

- Engineered a robust attribute development framework using **Python** and **SQL**, enabling the creation and management of complex data attributes from diverse sources.
- Implemented automated testing routines for attribute completeness and consistency, leading to a **20%** reduction in post-deployment data validation issues.

- Integrated attribute management workflows with existing production systems, ensuring seamless data flow and reliable analytics for risk assessment.

Data Visualization Dashboard for Operational KPIs

- Designed and developed interactive dashboards using **Power BI** and **DAX** to visualize key performance indicators for enterprise operations.
- Extracted, transformed, and loaded data from multiple relational databases (**PostgreSQL**, **Oracle**) using **Power Query**, creating a unified data model.
- Published reports to business stakeholders, providing actionable insights that supported data-driven decision-making and process optimization, resulting in a **10%** improvement in reporting efficiency.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
